

Payments

Fundraisers, Invoices & More

With ParentSquare's Payments technology, you can easily manage payments for:

- Fundraisers like jog-a-thons or school auctions
- School Supplies
- Events like field trips
- & more!

Benefits of secure online payments:

- Money won't get lost or misplaced
- Prevent embezzlement — money goes straight to the school
- More convenient for parents, teachers & staff
- Easier for parents to pay the full amount upfront
- Continue an invoice, even after a student has left the school

How It Works:

For Optional Payments

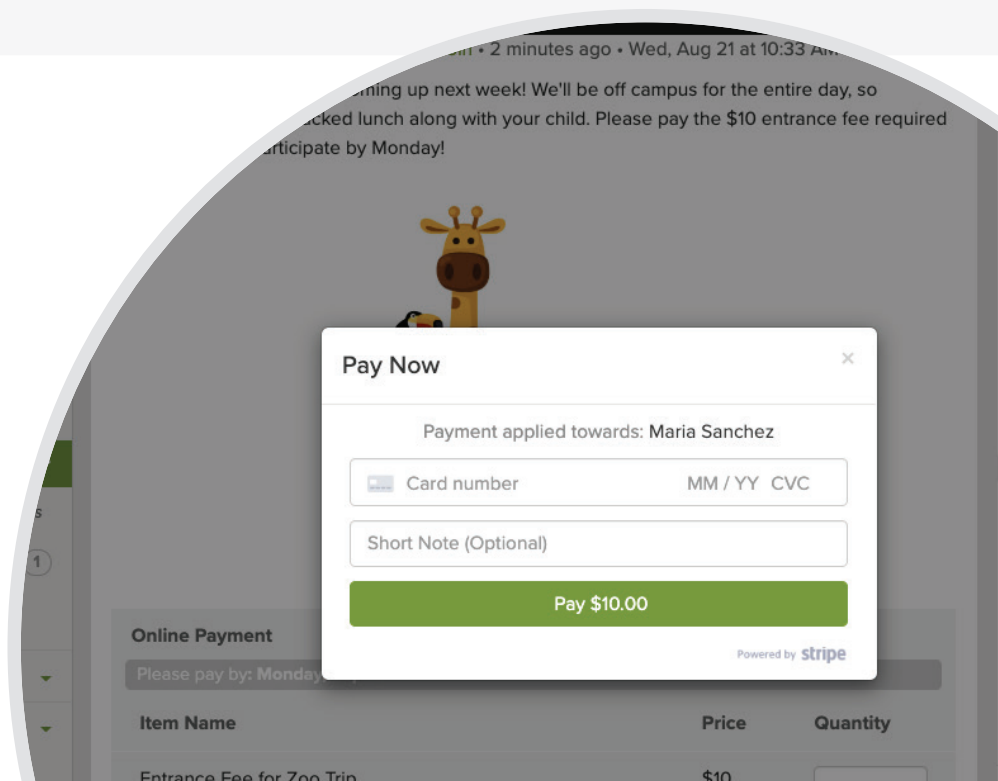

1. When drafting a post, click “Request payment”
2. Fill in the item, along with its price & an optional payment due date
3. Post & share!

For Invoices

1. Upload a pdf master file of invoices via the Secure Document Delivery function
2. Attach an optional message
3. Send! The document will automatically parse out documents and send to the correct parents.

What Parents See:

1. An email, text or app notification (depending on their preferences) with a link to the ParentSquare post or invoice document
2. Parents will be able to pay with their card via Stripe OR with our Stripe integration
