Bath Furniture

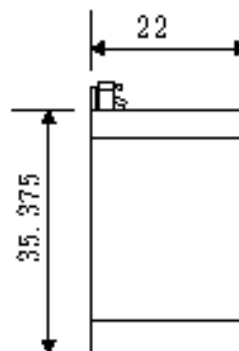

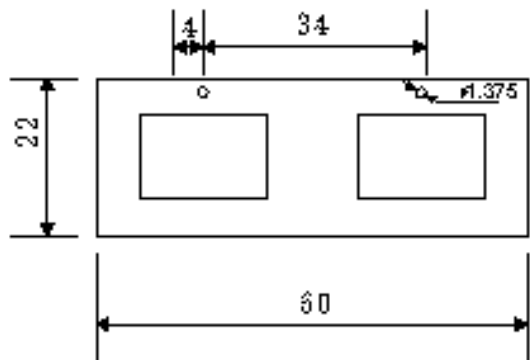

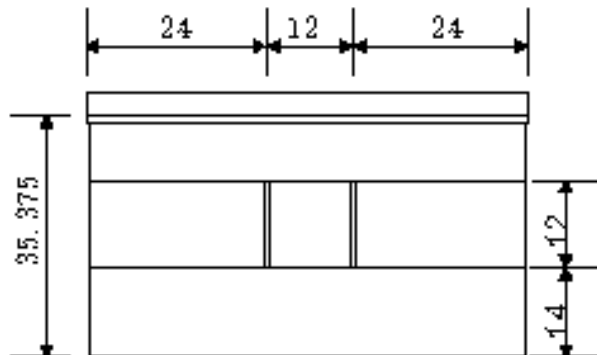

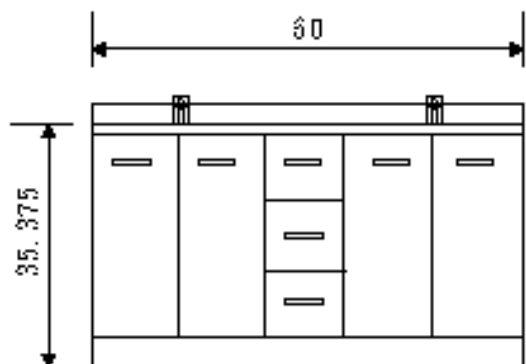

### Designer's Pick Collection

A vertical pattern created by the long cabinet doors, a striking meld of matte and glossy blacks, and the contrast created by satin nickel hardware and frosty-white porcelain under-mount sinks all work together to create a double sink vanity with futuristic panache and a richness in shapes, textures, and contrast. The solid oak frame, solid oak panels with water-resisting treatments, and granite countertop back up the strength of the visual design with physical robustness and longevity. Hidden pull-out drawers inside of the two soft-closing double-door storage cabinets provide flexible storage options for this full-sized vanity.
