Bath Furniture

The Malibu Collection

The 60" Malibu showcases light, clean lines and geometric shapes through a well-balanced convergence of wood, glass, and porcelain. The result is a practical, superbly functional design with a rich range of forms, hues, and textures. The lack of architectural embellishments make the Malibu a great value and a perfect fit for the ultra-modern bathroom. Quality design points were not sacrificed, such as solid oak construction (no MDF in sight), soft-closing cabinet doors, a water-resistant finish, and a tempered glass countertop. Thanks to the round vessel sinks, there's plenty of counter space, and storage space is further enhanced with three large drawers and two double-door cabinets.

Malibu 60" Double Sink Vanity Set
