The Imperial Collection

The Imperial vanity set has a quaint, home-steading look with its beveled cabinet edges, Victorian-inspired 4-lite window frames, rounded satin-nickel finish hardware, and marble countertop. Yet, it also fits in a more contemporary bathroom thanks to its straight lines, smooth crown, and subtle plinths. We call this look "transitional" - which is not so much an identity crisis as it is a coherent combination of the best of both worlds. The result is an execution in elegance and class, one that's compatible with a wide range of bathroom styles and home decor.
