>>> Why Choose Sonargaon University Apparel Manufacture and Technology

Industry-Focused Curriculum

Our courses are tailored to blend technical knowledge with hands-on experience in apparel design, manufacturing, and production management.

Modern Labs & Facilities

Equipped with cutting-edge machinery and simulation tools, students gain real-world skills in garment production, CAD, pattern making, and quality control.

Expert Faculty

Learn from industry-experienced teachers and researchers who bring practical insights from the textile and RMG sectors.

Internships & Industry Links

Strong partnerships with leading apparel companies ensure internships, factory visits, and career placements for students.

Affordable Quality Education

Competitive tuition with merit-based scholarships and financial assistance make higher education accessible.

Library

The university library offers a rich collection of books, journals, and digital resources. Students can study in a quiet, comfortable environment with internet access, it supports academic research and lifelong learning for all departments.

Programme Objectives (SU)

At Sonargaon University, our Apparel Manufacture and Technology program integrates innovation, industry expertise, and sustainability to prepare students for the future of fashion and textiles. Students gain practical experience in advanced labs, work with state-of-the-art equipment, and learn directly from industry-seasoned faculty. The curriculum covers everything from fiber science and garment engineering to smart textiles and sustainable production. With strong links to the RMG sector and a future-focused academic approach, graduates are well-prepared for careers in garment production, quality control, merchandising, and global textile innovation.

ELIGIBILITY FOR ADMISSION

At Sonargaon University, we welcome creative and passionate individuals who aim to build a successful career in the apparel and textile industry. Minimum GPA Requirement: A GPA of 2.50 or above in both SSC and HSC (or equivalent). If a student scores below 2.50 in either exam, a combined GPA of at least 6.00 is acceptable. Academic Background: Students from any discipline—Science, Business Studies, or Humanities—are eligible to apply. No specific subject combination is required. If you're driven by innovation, interested in sustainable fashion, and ready to work in fields like garment production, merchandising, and quality management, then the Apparel Manufacture and Technology program at Sonargaon University is your ideal starting point.

CREDIT REQUIREMENT AND DURATION OF THE PROGRAM

Program Name: B.Sc. in Apparel Manufacture and Technology

Total Credit Requirement: 160 credits

Program Duration: 4 academic years (8 semesters)

Minimum CGPA for Graduation: 2.50

The program combines academic knowledge with hands-on technical skills to prepare students for dynamic roles in the apparel and textile industry. Students have the opportunity to improve their grades by retaking failed courses in subsequent semesters.

- Female quota
- Need-based waiver
- Disability Quota
- Sibling (Brother-sister)
/Husband-wife
/Issue-parents/Others)

Career Opportunities

- ✦ Garment Production Management
- ✦ Industrial Engineering
- ✦ Merchandising & Sourcing
- ✦ Quality Control & Assurance
- ✦ CAD/CAM and Pattern Design
- ✦ Fashion Product Development
- ✦ Sustainability and Compliance
- ✦ Entrepreneurship
- ✦ Global Sourcing & Supply Chain Executive
- ✦ Sustainability & Compliance Officer
- ✦ Quality Control Specialist
- ✦ CAD Designer & Pattern Expert
- ✦ Apparel Entrepreneur
- ✦ Production Trailblazer

A degree in Apparel Manufacture and Technology from Sonargaon University opens doors to dynamic careers in the fashion, textile, and apparel industries—both locally and internationally. Graduates excel as apparel engineers, production managers, quality controllers, merchandisers, sourcing specialists, and product developers. They work in leading garment factories, buying houses, fashion brands, and R&D units, or collaborate with international clients and global supply chains. Equipped with strong technical skills, design insight, and industry knowledge, our graduates are also well-prepared to innovate in sustainable fashion, manage large-scale manufacturing units, or even launch their own apparel brands. Whether on the factory floor, in the design studio, or at the global marketplace—SU graduates are ready to lead, create, and shape the future of fashion and textiles.
