

Wenqin's Recipe

Cherry sawdust+ Seaweed+ Charcoal

Cherry sawdust 20g

Seaweed 20g

Charcoal 5g

Mycelium Painting

Pure natural materials replace industrial pigments — more environmentally friendly

Step:

- 1 Sterilize and powder the ingredients.
- 2 Put in a petri dish and grow mycelium.
- 3 Dye mycelium with natural pigment spray paint.
- 4 Used in painting instead of paint.
