

Russia

Russia has the largest landmass of any country in the world at 17,075,200 square kilometres. Because it is so large it stretches over both Europe and Asia.

The Brown Bear is a symbol of Russia as well as as being the national animal. The other celebrated animal in Russia is a double-headed eagle which is on the traditional coat of arms.

The current president of Russia is Vladimir Putin

The climate of Russia is extremely varied due to its immense size. Most of Northern European Russia and Siberia has a subarctic climate, with long, severe winters and short, cool summers, whereas the coastal part of Krasnodar Krai has a humid subtropical climate.

Russia spans 11 time zones

Russia has an average of 500mm of precipitation and the temperature typically varies from -11°C to 24°C , although the lowest temperature ever
