

The R&Mfreenet Cat.6A connection modules, part of the Freenet cabling system, are ideal for voice, fast data transmissions and high bandwidth applications. This high performance Cat.6A module is perfect for use in 10 Gigabit Ethernet (10GBASE-T) and future high-speed applications up to 500MHz and beyond. The shielded version fulfills 25G transmission speeds (25GBASE-T) when used with the respective R&M Cat. 7A installation cables.

Features of Cat.6A Modules

- Exceeds the Cat.6A ISO component specification (for the entire re-embedded plug range) as specified by the standards ISO/IEC 11801, EN 50173, TIA 568.2-D, IEC 60603-7-41/51 and 60603-7
- Exceeding the IEEE 802.3an minimum requirements for 10GBASE-T performance
- **Shielded** version ready for **25G** channel transmission according to ISO/IEC TR11801-9905 up to 30m
- Achieves best in class transmission characteristics for Class E_A with R&Mfreenet Cat.6A patch cables
- X-Seperator isolates pairs from each other, minimizing influence of cable termination on transmission performance
- Automatic cutting of wires during termination for precise, consistent impedance control
- Use of all four sides of modules maximizes distance between pairs for optimum performance
- Gold-plated contact area and tin-plated insulation displacement contact area
- Capacitive and inductive compensation
- Compatible with Cat.6A standard patch cords and cables
- Full mechanical and electrical backward compatibility with Cat 5e/6
- RJ-11 compatible
- Fits into 3rd party outlets and patchpanel with 4 different adapters
- Tool-free (w/o special tools) connection of installation cables of AWG 22-26 and stranded cables of AWG 22/7 – 26/7
- Reterminations possible up to 20 times
- Wiring option according to TIA 568 A and B with parallel termination of the pairs without splitting of pair 3,6
- Label with color wiring chart, integrated production date and batch number for quality tracking
- Halogen-free materials, ROHS II
- Supports PoE (IEEE 802.3af), PoEP (IEEE 802.3at), 4Ppoe (IEEE 802.3bt) and is compatible to IEC 60512-99-001/002
- 3P and UL certified
- Shielded version GHMT certified
- iF Award winning design
