

FMTS Patch Tray

FEATURES

- for 4x E2000, 4x SC or 4x LC duplex adapter
- separated storage of incoming and outgoing fibers
- fiber storage area with crossing field
- numbered adapter cutouts for clear identification
- tray numbering with standard cable marker
- min. bending radius 20mm
- version for FMTS30 or SCM fiber management system

TECHNICAL DATA

The FMTS Patch Tray can hold up to 4 SC shaped adapters (SC, E2000 or LC Duplex). The separated fiber storage area for incoming and outgoing fibers improves the access to the fibers.
