Ordering Information
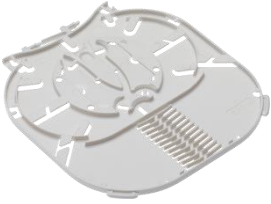

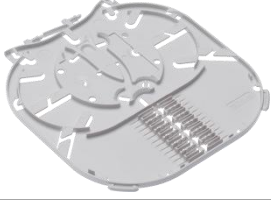

Fiber Management Tray System FMTS30

Description

The modern tray system FMTS30 allows a safe and easy placing of splice connections as well as integration of splinters directly in the splice tray.

The cassettes can be clearly identified from the outside with the numbering and color clips. In addition, a generous label inside the cassette permits a more detailed description of the individual splice connections, fiber bundles or application. These labeling possibilities avoid confusion.

FMTS Splice Tray System

	Description	TPU[1]	R&M No.
	FMTS Splice Tray 4HS/4ANT, gray **FMTS-HS4/ANT4-1TPU-GY** FMTS splice tray for 4 heat shrink splice protectors (Ø2.3 - 2.7mm) or 4 sandwich splice protectors (ANT) PU: 12 pcs.	1	R820094
	FMTS Splice Tray 12HS, gray **FMTS-HS12-1TPU-GY** FMTS splice tray for 12 heat shrink splice protectors (Ø2.3 - 2.7mm) PU: 12 pcs.	1	R820095
	FMTS Splice Tray 12ANT, gray **FMTS-ANT12-1TPU-GY** FMTS splice tray for 12 sandwich splice protectors (ANT) PU: 12 pcs.	1	R820096
	FMTS Splice Tray Splitter, gray **FMTS-SPLIT-2TPU-GY** FMTS splice tray for splitter max. 2:32 (60x16x7) incl. splice holder for 2 heat shrink splice protectors (Ø2.3 - 2.7mm) or 2 sandwich splice protectors (ANT) PU: 6 pcs.	2	R820097
	FMTS Splice Tray Cover, gray **FMTS-COVER-GY** FMTS splice tray cover PU: 12 pcs.		R820098

[1] TPU: Tray Position Units correspond to the number of tray fixing possibilities.

Product Details
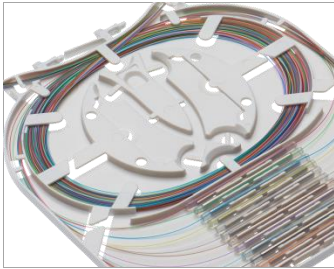

Fiber guidance

- Bending radius 30mm
- Integrated cross over field
- Storage of fiber (250µm) >1.50m
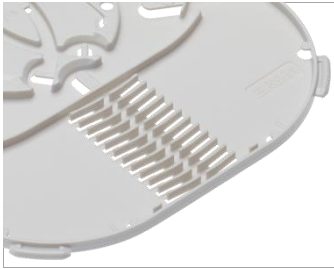

Integrated splice holder

- various splice trays available for:
  4 heat shrink splice protectors or 4 sandwich splice protectors (ANT)
  12 heat shrink splice protectors
  12 sandwich splice protectors (ANT)
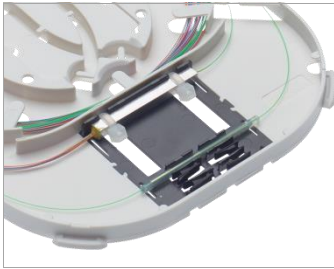

Splitter application

- Splitter can be installed directly into the tray
- Splitter ration of max. 2:32 with 250µm fibers
- Splitter ration of max. 2:16 with 900µm fibers
- Splitter dimensions: max. 60mm x 16mm x 7mm
- Splice holder for 2 heat shrink splice protectors
 or 2 sandwich splice protectors (ANT)

Clever tray hinge

- Fiber runs through pivot point
- Tray keeps in 90° positions, no tool needed
- No pushing or pulling of fibers during cassette movements
- Easy and quick insertion and release of single trays,
  accidental release not possible!

Tray indication outside (accessories)

- Reliable marking with up to 3 clips per tray
- Visible from outside
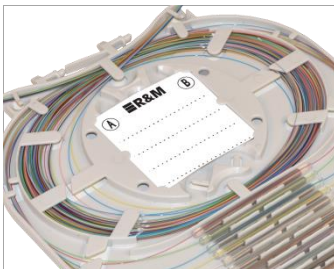

Tray indication inside (Accessories)

- Generous printable paper label
- Electronic template available of label printing
