

Bee and Flower Craft

Create your own bee and flower out of craft supplies you have at home! [Watch this video](#) to see a demonstration of this activity in Spanish!

Materials:

- Yellow paper
- Black paper
- Green paper
- Red paper (or whatever color you want your flower to be)
- Black crayon
- Glue
- Scissors
- Paper plate
- Popsicle stick or pencil
- Paint brush (optional)
- Glitter (optional)
- Google eyes (optional)

1. Use your yellow paper to cut out an oval and a circle. Glue the circle to the top of the oval.
2. Use a black crayon to draw stripes on your bee.
3. Use your yellow paper to cut out two small rectangles for the antenna. Glue the two antenna to top of the circle.
4. Use the crayons to draw eyes and a mouth on your bee or you can use google eyes.
5. Put the bee on a paper plate. Use the paint brush to spread a thin layer of glue on your bee. Sprinkle glitter right on your bee. Gently lift the bee and shake the extra glitter onto the paper plate. Throw out the plate and the mess!
6. Use the green paper to cut out two circles for the wings. Glue the wings to the back of the bee.
7. Use the red or colored paper to cut out a flower shape. Use the yellow paper to cut out a small circle for the middle of your flower. Glue the small circle into the center of your flower.
8. Glue the bee and flower to a popsicle stick or a pencil to turn it into a puppet! Watch our [workshop on Storytelling](#) to learn more about telling stories with puppets.

Retell the Story

Use your puppets to retell the story! Then make up your own story.

- Where is your bee flying to next?
- What is it going to do?
