*Companies join ever-growing list of services, tools and technology  
offered through the RE/MAX Marketplace*

**DENVER** – Today, RE/MAX, LLC, announced the addition of nine companies to the RE/MAX Approved Supplier program, a list of vetted organizations providing business services to the RE/MAX network. All Approved Supplier services and products are offered through the [RE/MAX Marketplace](#), a one-stop portal for RE/MAX affiliates in the U.S. and Canada to find exclusive deals on digital products, services, apps, technology and more.

The new additions include:

Digs offers financial tools that empower current homeowners to build wealth through their home. The report can be branded to an agent's business, allowing them to offer continuous value to clients.

### **eComFax**

eComFax is a safe and reliable way for agents to send and receive faxes. Messages can be sent from any device or location with no need for bulky hardware. Faxes are easy to access online to reference at a later time.

### **Hurdlr**

The app securely links with credit and bank accounts, eliminating data entry, and generates reports on expenses and deductions to send to a CPA and help with tax filing.

### **MooveGuru**

MooveGuru Inc. launched a free mover engagement program to real estate agents and brokers with the idea of connecting home buyers and sellers to convenience and savings on moving services. Using just-in-time delivery through artificial intelligence algorithms, MooveGuru Inc. ensures consumers receive agent-branded savings from national and local retailers and utility connections as they step through the relocation process.

### **NetSheet**

NetSheet™ generates estimates of closing costs and other associated fees in an agent's local

market area for clients and prospects in real time. Agents can add this new tool to their website via a widget that also captures contact information, providing both sphere and organic lead generation for the agent. In addition, by using this new technology, an agent will be able to optimize their social media efforts with relevant data content and drive more traffic to their website.

#### **ROI Muse**

ROI Muse helps agents perform a rental and flip analysis on a property quickly and effortlessly. Reports can be generated in as little as five seconds! The platform offers financial training for agents and their clients, helping them learn basic principles of real estate investing.

#### **SekurSafe**

SekurSafe is a secure, Swiss-hosted data, email and communications productivity tool. It offers secure data backup, file-share, group collaboration, email, and password management. With SekurSafe, RE/MAX affiliates can securely store and share any file type, password or email with anyone within or outside of their organization.
