

# TOP 250 Latino Real Estate & Mortgage Originators Awards

## Celebrate Latino Excellence in Real Estate!

The TOP 250 Awards recognize the nation's leading Latino agents and mortgage originators who are making a meaningful impact in their markets. The Top 250 Latino Agents & Mortgage Originators ranking is compiled through broker-affirmed self-nominations based on residential transactions closed during the previous calendar year. Nominees submit their closed transaction count and volume, which NAHREP validates against available data sources, including MLS and franchise records, to ensure accuracy.

## Nominations are officially OPEN

Nominations accepted until FEB 28

### Agent vs. Team — What's the Difference?

#### Team

A team operates as one entity.

- Only the team leader's closed transactions (per MLS, contract, or official record) count toward team totals.
- If your production closes under your team leader's name, nominate as a Team.

#### Individual Agent

An individual agent closes deals under their own name, even if they work within a team.

- If your production closes under your personal name, nominate as an Individual.
