

COMPANY PROFILE

Rigging Projects

ABOUT US

Rigging Projects Group is a multifaceted business, established in 2014, focused on supplying world class sail handling solutions from design through to integration and life-time servicing.

OUR MISSION & VALUES

PEOPLE

We are a team united by respect and integrity in a positive work environment.

INNOVATION

We have a culture of curiosity, creativity and continual improvement driving innovative solutions that anticipate the needs of our clients.

PASSION & PRIDE

We are passionate about our work and proud of our brand.

CLIENT CENTRIC

We deliver exceptional customer service to build lasting relationships based on trust.

ENVIRONMENT

We are mindful of our environment in every business decision we make. We acknowledge our impact and minimise it.

//

Since 2014, we have designed over 3500 custom assemblies, delivered 60k+ metres of textile products and serviced countless yachts. That is the expertise we are building on as we look to the future.

Rigging Projects

TEXTILES

Our Textile division supplies loops, strops and cordage to some of the most high end superyachts and race yachts in the world.

HARDWARE

From sheaves to locks, our hardware offering covers everything you would typically find on the deck or mast of a modern yacht.

MACHINING

Our machine shop is located in-house at our HQ in the UK. We manufacture, assemble & QC all of our own products and 3rd party products too.

CONSULTANCY

We offer an end-to-end Design & Consultancy process to specify the optimum sailing system for your new build or retro fit project.

OUR LOCATIONS

NETHERLANDS, EU

SOUTHAMPTON, UK

NEWPORT, RI

PALMA, SPAIN

The Rigging Projects Group has service locations that span both sides of the Atlantic and the Mediterranean. Supported by our UK headquarters and production facility, our riggers and service agents have a global reach.

"We commissioned Rigging Projects to supply their locking headboard car system. Their guys installed everything in Antigua without a fuss, the week before back to back regattas"

Graham Newton, SY Hetairos

"A short note to say thank you for your time and hospitality. It was great to see the fruits of your labour and to feel the energy in the place from the people working there, so often not the case."

Henry Hawkins, EVP Baltic

"Rigging Projects managed the build of our new spars and the subsequent implementation phase. Their continued development and tuning input is what makes the package so competitive."

Brad Butterworth, Jethou 77
