Happenings

Fall 2025

The fall season is an opportune time to review and anticipate any changes that may impact your 2025 tax situation.

Preparing for Tax Season 2025

Business tax preparation begins in January and personal 1040 returns the first part of February. Please update us with changes to your contact information including email, phone number or mailing address. Please take a moment to review the enclosed “Preparing for Tax Season” overview.

Online is the way to go!

As the IRS has mandated “E-Filing” and states have also moved to online platforms. At Hainsworth Raja & Company, CPAs PC, we utilize seamless online formats for tax preparation including web delivery of your client organizer, tax returns and E-Filing all through your secure individual portal.

For preparation of your 1040 returns, we start with your completed organizer you submit via your portal along with W-2’s, 1099’s and any applicable documentation listed in your organizer to ensure you are maximizing your tax benefits. The organizer is a thorough way to ensure you do not miss something that may seem unrelated to your taxes!

Through the tax preparation process, your tax preparer will stay engaged and reach out with questions. Once the return is complete and reviewed on our end, we will transmit the returns to your secure portal. You will receive emails to review and e-sign your authorizations to allow us to e-file your returns.

In Closing

Tax regulations are always evolving, and we stay in compliance with these ongoing changes. Thank you in advance and we hope you enjoy this incredible fall season!

2025 Fall Finn Newsletter

Greetings to all!

I have some exciting news to share with you. We have new family member as of August 11th. Meet our boy Rudder! I have been keeping busy training him like Tug trained me 7 years ago. Rudder and I are getting along great. He is also a golden retriever, and we share much of the same family history going way back. I have been spending my days with Rudder, and he learns quickly. He has the beach

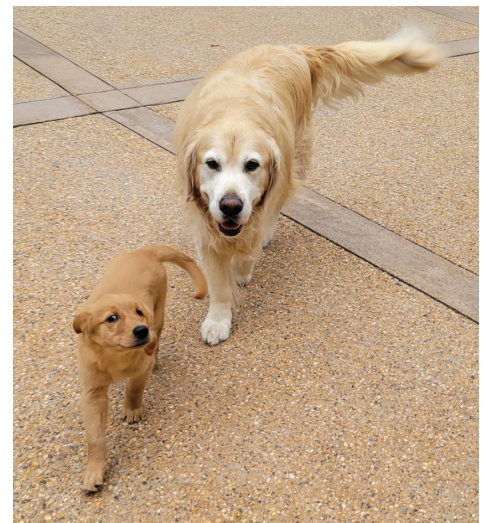

and his swimming down quite nicely. While he still is a puppy, the potty training is in progress. Rudder won't likely be in the office until he can be fully trusted. We are keeping him focused on repetition at home for the time being.

With Fall now in the air, we look forward to less hot days and more fun playing in the leaves and having bonfires. Rudder loves to be outside just as much as I do!

I hope everyone has some down time to enjoy the crisp fall air and pumpkin season. You know I love the cooler days and nights myself.

Until next time, I am back to teaching the little one good manners.
