Meeting the accounting needs
of your healthcare business

Mary P. Hollister
CPA, PC

A business owner's goal is sustainable financial success for the long term.

The demands of running a healthcare business include patient care, administrative requirements, staffing, liability concerns and patient compliance.

These responsibilities leave little time in the schedule for accounting tasks.

To ensure your business is set up for continuous financial profit and stability, let our firm handle the accounting with our outsourced accounting service.

Our experienced team will handle the day-to-day accounting work and serve as your business advisor to offer you reliable guidance throughout the year.

Contact us today for more information about our outsourced accounting service and let our team meet the accounting needs of your business.
