YOUR PROFESSIONAL GOAL IS OUR MISSION

Meeting the accounting needs
of Physicians & Surgeons

Lipsey & Associates

A

A medical professional's goal is sustainable financial success for the long term while dedicating themselves to patient care. The demands of being a physician or surgeon include diagnosing, treating and counseling patients for health maintenance, performing surgery and being on call for extended periods of time. These responsibilities leave little time in the schedule for accounting tasks.

To ensure you're set up for continuous financial profit and stability, let our firm handle the accounting with our outsourced accounting service, **BOSS™** (Back Office Support System). Our experienced team will handle the day-to-day accounting work and serve as your advisor to offer you reliable guidance throughout the year.
