We'll handle the **NUMBERS.**

Top 5 reasons
**Professional
Athletes**
should leave the
accounting to us

Professional athletes are focused on what they do best: keeping a competitive edge for optimum sports performance. While sports come first, professional athletes also have to deal with practice, exercise and skill development. With all that's involved in maintaining athletic ability, what professional athlete has time to do the accounting...and do it well?

The accounting function is integral to a profitable, professional athletic career. And, typically, even the most passionate of professional athletes do not make the best accountants. To ensure that your financial management and planning leads to long-term profitability, let our firm handle your accounting.

BOSS™ (Back Office Support System) is our outsourced accounting service—where our expert team serves as your “internal” accounting department. We handle the day-to-day accounting work while also serving as your advisor to ensure you understand the numbers and make informed decisions throughout the year. Consider all the reasons you should leave your accounting to us:

① Trusted accounting resource

You can trust our team to handle everything from accounting and bookkeeping to bill-pay and tax. And because we are familiar with your day-to-day operations, overhead structure, and financial goals, we are uniquely qualified to handle your back office accounting work—freeing you to focus on your athletic training.

② Dedicated advisor

Not only can our team handle your accounting tasks, but you also get dedicated financial advisory support throughout the year. We'll analyze your numbers, help you understand your finances and work seamlessly with your investment advisor to support informed business-savvy decisions.

③ On-demand access to your data

Our services are supported with the most advanced technologies. This ensures an automated, streamlined work process that helps us deliver exceptional service. Our online platform supports a collaborative workflow and offers you 24/7 access to your data and documents.

④ Budget-friendly monthly fee

BOSS provides complete accounting and advisory services at an affordable fixed fee—so you never have to worry about hours adding up and variance in monthly accounting bills. Outsourced accounting is more affordable than most realize. Not only do we save you money, but you save time to do what you do best.

⑤ Security

Confidentiality of financial information, including salary agreements and wealth, ranks high in importance. When accounting is handled in-house, it's difficult to maintain privacy of information and ensure that proper controls are in place. BOSS offers a third-party administrator (our firm) to monitor and manage the accounting function, resolving data privacy and control issues.

Let us handle the **NUMBERS...**
so you can get back to what you do best.

BOSS is the answer. Years of dedication to client service combined with our experience working with professional athletes ensures accuracy of financial data and reporting. Even better, you are supported within an on-demand cloud-based platform, so you always have access to your data.

Contact us today! We are happy to walk you through the BOSS service and show you why it's better to leave the accounting to us.
