## **SENDING THE QUICKBOOKS ACCOUNTANT'S COPY FILE**

Using the Accountant's Copy of your file is an efficient way to share data with us. As a business owner, you can continue your day-to-day tasks while we have a copy of the file to review and in which to make any necessary adjustments that will merge back into your file.

If you have QuickBooks for Mac, disregard the following instructions. You can find the instructions to send us a backup for our use at <https://community.intuit.com/articles/1390150>.

**A friendly reminder: before removing the Accountant's Copy restriction, please consult with us. If you decide to remove the restrictions, you will not be able to import the accountant's changes.**

### **Creating an External Accountant User**

Prior to creating the accountant's copy, it is recommended that you set up an external accountant user by following the 5 steps listed below. The external accountant user does not have access to sensitive customer data such as credit card numbers.

1. Click **Company, Setup Users and Passwords** and choose **Setup Users**. To access this menu, you will have to enter in your main QuickBooks Admin password.
2. Click **Add User**. The set up user password and access dialog appears.
3. Enter a user name and password for the external accountant user. Use WKS as the user name with a password of your choice. Write down the password as you will need to email it to us (see below). Click **Next**.
4. Select **External Accountant** as the access for this new user and click **Next**. A warning will pop up asking if you are sure you want to give this new user access to all areas of QuickBooks; click **Yes**. Then click **Finish**. You have now created an external accountant user.

### **Send using Intuit's Accountant's Copy File Secure Transfer Service or send via email attachment or USB**

The **preferred method** of sending an accountant's copy is through Intuit's File Secure Transfer Service. However, this is only available in recent versions of QuickBooks. Therefore, some QuickBooks users may need to create a file that can be emailed, uploaded to our portal or dropped off on a USB.

To create an accountant's copy for either method, visit this website for step-by-step instructions:

### **Items to note when creating an accountant's copy:**

1. When prompted, make sure to choose 1/1/2024 as the dividing date.
2. For Intuit's file transfer service, use [admin@wkscpa.com](mailto:admin@wkscpa.com) for your accountant's email. Our firm will receive an email notification that your data file is ready to download.
3. For Intuit's file transfer service, use a strong password that is seven characters long and contains at least one capital letter and one digit. **Send this "transfer" password along with the external accountant password and your QuickBooks version in a separate email to us at [admin@wkscpa.com](mailto:admin@wkscpa.com) or call us at 907-456-2222.**
4. If unable to use Intuit's file transfer server, you can email your QB file to us (it will have a .QBX extension) as an email attachment to [admin@wkscpa.com](mailto:admin@wkscpa.com) or copy it to a removable data storage device (CD, USB, etc.). **Make sure to send the external accountant user password and QuickBooks version in a separate email to us at [admin@wkscpa.com](mailto:admin@wkscpa.com) or call us at 907-456-2222.**
5. If you must use a USB or other removable data storage device to transfer your file, it is preferred to be brought to the office in person so that we are able to transfer the file and immediately return the USB. **Note: Any USB or CD received in the mail may be destroyed after the data has been transferred unless otherwise requested.** This policy is set in place to protect your sensitive data.
