

Modern Bill Pay that Scales With Your Business

Work fewer hours, improve controls, and increase valuation—without the manual AP chaos.

Stopp & VanHoy CPAs and Business Advisors implements—and can optionally manage—BILL®, the leading bill pay and spend management platform that integrates with your accounting system.

Are You Facing These AP Challenges?

- Manual checks and email-based approvals
- Bills scattered across mail, email, and texts
- Little to no internal controls
- · Paper or missing receipts
- Limited accounting integration and manual coding
- Slow, error-prone AP leading to late, inaccurate financials

Built For Owner Goals

Maximize business value

Scalable, well-controlled processes improve profitability and transferability—key valuation drivers.

Work fewer hours

Centralized bill inbox, automation, and one-click approvals cut after-hours bill pay.

Scale and grow

Digital approvals and role-based controls let managers approve spend while you focus on growth.

How BILL Helps Our Clients

1) Eliminate manual AP chaos

Paperless invoice capture, automated routing, and secure e-payments replace spreadsheets, email chains, and check runs.

2) Gain real-time spend visibility & control

With BILL Spend & Expense (formerly Divvy), issue physical/virtual cards, set budgets and limits, and see every dollar in real time.

3) Get clean, current financial data

Two-way sync with your accounting system (QuickBooks, Xero, NetSuite), automated coding, and audit-ready records.

How Stopp & VanHoy Can Help

Option 1 — Fully Managed Bill Pay

We receive invoices, route approvals, schedule payments, and ensure accuracy and timeliness—using BILL, integrated with your accounting system.

Option 2 — Implementation For Your Team

We implement BILL for your AP team, design controls and workflows, train your staff, and optimize integrations. Ask about discounted pricing on BILL through our firm vs. purchasing direct.
