RS

WHY CHOOSE RS AS YOUR BUSINESS PARTNER?

The only source you need

Whatever the industry sector, businesses are faced with an ever-changing world, financial pressures, and demanding stakeholders. Partnering with a collaborative, flexible, and forward-thinking supplier can help you complete your mission, while saving time and money.

We'll work with you to improve your supply management performance for commercial success. We'll deploy our suite of next generation inventory, procurement, and maintenance solutions designed to reduce costs and optimise productivity. We'll combine these with data insight which enables you to optimise your supply chain, sharpen your processes, and define cost saving strategies that will reduce the total cost of ownership and drive operational efficiency.

Industry experts

RS are industry experts with a full-service PPE solution for every sector, as well as access to over 250 PPE manufacturers and 10,000+ products. As the most long-established PPE provider in the UK we offer impeccable industry knowledge. We help create global solutions for all market sectors, ensuring a safe practice working environment for businesses of any size and industry.

RS Safety Solutions have extensive experience and best practice in PPE consumables, with a wide range of high quality, competitively priced PPE products to suit every requirement. We provide reliability and choice with ample stock of both our own brand products and through our leading brand partners.

Wide range of local PPE suppliers

Our established manufacturer relationships help us and you to secure a resilient supply chain and stay ahead of the market with the latest innovation, products and value.

You can rest assured that our range is compliant to Australian safety standards for your industry.

You can trust us to mirror your high standards by ensuring no modern slavery in our supply chains and actively reducing packaging waste.

Unlock productivity

RS Safety Solutions have the power to unlock new productivity and reduce costs by assessing your individual processes. We will work with you to find a holistic way to incorporate what you need into your process, maximising every avenue for further efficiency.

Our full stack digital capability for quick and easy ordering along with our closed loop process with full traceability from Account Manager, admin, storeman to delivery allow you to control your safety and spend. We can help you build cost savings into your entire PPE supply – from procurement, right through to delivery and stock management.

We pride ourselves on our high service levels and will always achieve excellence by meeting and exceeding your expectations.

01 Drive efficiencies in your business

We're specialists in Procurement, Inventory and Maintenance Solutions. Together, we can review your current processes and maintenance strategies to highlight areas with opportunities to save cost, reduce consumption and increase uptime.

02 Spend less time dealing with suppliers

Why deal with multiple suppliers? With over 750,000 industrial products and a host of services available, we save valuable time – and admin. With everything in one place, why go anywhere else?

03 Reduce costs

We're constantly looking for ways to drive efficiencies and save our customers money. Whether it's leveraging our purchasing power to get better prices, or offering quality RS PRO own brand alternatives, we can help reduce your costs

04 Service you can trust

We're a brand of global technical experts – committed to delivering the highest quality service levels. With day-to-day customer service provided through your Account Manager, backed up by our Customer Services and Technical Support teams, you can trust us to be here when you need us.

05 We are where you are

With our widespread global network we can provide a dependable delivery service, on your doorstep. Offering extensive custom order and delivery services we're in the perfect place to work with multi-site organisations.

06 We care about tomorrow

We're committed to working with our customers to help build a more sustainable future. Constantly looking for ways to reduce the impact we all have on the environment, we want to improve the wellbeing of our people, suppliers and communities.

Hearing protection

RS Safety Solutions will protect products, people and processes in any food and beverage manufacturing environment. We are the single point of contact for our partners, but utilise the vast industry knowledge and strong relationships of local suppliers to provide you with the PPE products and brands that are right for your business.

We'll simplify, streamline and rationalise your process so you can protect your products, people and profits alike.

From contamination to accidents, you'll never risk your products or people. By working with RS Safety Solutions you can be assured of a fully compliant and quality supply partner.

Suppliers are onboarded and their performance is managed in accordance not only with the ISO9001 Quality Management System, but also under the group Sustainability and Ethical policies. This encompasses a strong emphasis on the Modern Slavery Act and associated issues. All suppliers are required to conform to the group Code of Conduct and relationships are managed by a team of experienced Product Managers, who are all specialists in their own field of the PPE market.

PPE FOR THE ORIGINAL EQUIPMENT & GENERAL MANUFACTURING SECTOR

RS Safety Solutions will protect your people and processes in any manufacturing environment. We are the single point of contact, but utilise the vast industry knowledge and strong relationships of Liscombe and RS to provide you with the PPE products and brands that are right for you.

From onsite accidents to allergic reactions, you'll never tolerate risks to staff. Maximise the full power of PPE by:

- Talking to our team of experts to ensure that you have the right product, for the right person, for the right purpose and avoid misuse.
- Reducing overuse and overstocking. Our delivery options mean that you get what you need, when you need it.
- Staying up-to-date and ahead of the market with the latest products and innovation.
- Reducing the risk of understocking products with our range of delivery solutions.

RS Safety Solutions can produce specialist heat and cut resistant hand protection, certified as Category III under the PPE Regulation 2016/425. This activity is subject to independent audit by SGS as part of the ISO9001 Quality Management Systems and is confirmed by the relevant Module D certification issued by SGS.

Coated Gloves

Nitrile Gloves

Disposable Suits

Branded Workwear

Eye Protection

Safety Footwear

Respiratory Protection

Hearing Protection

PPE LINECARD

EYE PROTECTION

Designed to protect against mechanical, chemical, thermal, electric and/or radiation risks. Covered by a number of Australian & New Zealand Standards including AS/NZS2228, AS/NZS1337, AS/NZS1338 & AS1067.

- Safety Glasses & Safety Goggles
- Lens Cleaners
- Face Shields
- Eyewear Accessories

HEAD PROTECTION

Designed to protect the vulnerable head area from falling objects and other workplace hazards. Hard hats are also frequently designed to work in conjunction with ear and eye protection as required. Head protection needs to meet AS/NZS1800.

- Bump Caps
- Hard Hat Accessories
- Hard Hat

HEARING PROTECTION

The Control of Noise at Work Regulations 2005 requires employers to provide suitable hearing protection where noise exceeds 80dB(A).

- Ear Defenders
- Ear Plugs
- Hearing Accessories

RESPIRATORY PROTECTION

Respiratory Protective Equipment (RPE) is designed to protect your lungs from breathing in contaminated air, due to dust, mists, metal fumes, gases and vapours that can be hazardous to health. RPE must meet AS/NZS1716.

- Respirator Masks
- Face Masks
- Reusable Respirator Filters
- Mask Dispensers
- Disposable Respirators
- Powered & Airline Respirators

HAND PROTECTION

One of the most frequently used areas of PPE and available for a wide number of applications. The right glove can offer protection against mechanical, temperature, chemicals, vibration, cut, electrical and medical hazards. Covered by a number of European Standards including EN420, EN388, EN374, EN407, EN511 as well as Australian & New Zealand standards AS/NZS2161.

- Disposable Gloves
- Work Gloves
- Glove Dispensers
- Glove Clips

FOOT PROTECTION

Your feet need protecting from a number of hazards, including falling objects, stepping on hazards, slips, extreme temperatures, as well as ensuring comfort and avoidance of fatigue. Key requirements are as per EN ISO 20345:2011 and AS/NZS2210X

- Safety Boots
- Safety Shoes
- Safety Trainers
- Insoles & Laces

HI-VIS CLOTHING

Hi-Vis clothing is a key part of personal protective equipment and having the correct type is essential in many industries to help prevent accidental injury. Hi-Vis clothing can also offer other safety features such as fire retardant, anti-static, waterproof or windproof.

- Hi Vis Hoodies & Fleeces
- Hi Vis T-Shirts
- Hi Vis Jackets
- Hi Vis Trousers
- Hi Vis Overalls
- Hi Vis Vests
- Hi Vis Polo Shirts

WORKWEAR

Workwear will keep you warm, dry and comfortable enabling you to focus on the task at hand safely and productively.

- Aprons
- Sweatshirts
- Protective Hoods
- Arc Flash Clothing
- Hats
- Shirts
- Back Support Belts
- Jackets
- Shorts
- Base Layers
- Lab Coats
- Socks
- Bodywarmers
- Overalls
- T-Shirts
- Fleeces, Hoodies &
- Polo Shirts
- Trousers

DISPOSABLE WORKWEAR

Disposable workwear can include overalls, aprons, hairnets and mob caps. Some of which can be metal detectable and is a requirement when working in the Food Industry.

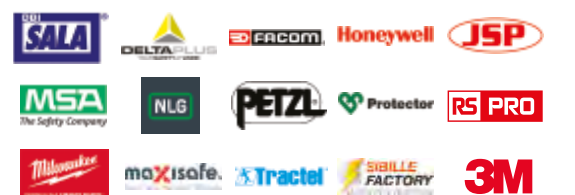

- Balaclavas
- Hair Nets
- Disposable Aprons
- Overshoes
- Disposable Coveralls
- Visitor Coats
- Hair Net Dispensers

FALL ARREST

Working at height involves a number of risks to those working above ground, and those working below. The wearing of fall arrest or fall protection equipment is, where needed, a requirement under the PPE regulations. These products need to meet AS/NZS1891

- Fall Arrest & Fall Recovery Kits
- Safety Equipment Bags
- Fall Arrest Blocks
- Safety Harnesses
- Fall Arrest Lanyards
- Tool Lanyards
- Safety Carabiners

KEEP YOUR PRODUCTS AND PROCESS SAFE

When working in any industry it's important to keep the areas you're working in, as well as the people in them, clean and safe. And if you're working in the Food and Beverage Industry it's even more important as you need to protect your products from contamination.

We have a full range of Hygiene and Site Safety products to ensure you do just this. From spill control to warning signs and mops and buckets to washdown equipment all from leading brands.

Site safety

Spill Control

Whether you need spill pillows, mats, booms or a complete kit we have you covered. Make sure you choose the correct type for your application whether it's for chemicals, oils or general maintenance use.

First Aid

Required by law in all businesses, we have complete kits, individual dressings or plasters and eye wash stations to keep you compliant.

Signage

Signage is more than just compliance with rules and regulations; it's about taking practical, meaningful steps to actively care for and protect your workforce and visitors against a wide range of everyday hazards.

Safety Flooring

Safety flooring and matting is designed to help reduce the risk of slips and injuries in the workplace and to protect employees. This is especially important in areas of increased danger such as manufacturing environments when working near machinery.

Hygiene

Cleaning Equipment

From mops and buckets to vacuum cleaners and floor scrubbers; we have a host of reliable cleaning equipment from leading brands.

Wipes & Cloths

Cleaning wipes and cloths have a wide variety of uses across all industries, and we have a vast range for you to choose from whatever your application.

Washroom

Maintaining a clean, well-equipped and hygienic washroom for staff and visitors is a must to ensure better working practices and help reduce the spread of germs or illness. We have a wide selection of soaps, sanitisers, cleaners and lotions as well as paper towels and toilet rolls.

BOOST YOUR BUSINESS PRODUCTIVITY WITH PPE PROCUREMENT SOLUTIONS

Not only do RS Safety Solutions hold the largest breadth and range of PPE products by leading brands, but we also support with a comprehensive range of RS Solutions that can deliver significant savings through your purchase, storage, and deployment of different types of PPE products.

Achieve efficiency in your PPE procurement through process automation with RS PurchasingManager™. This solution is perfect for national companies because it can be tailored to suit your business needs.

With multiple layers of authorisation, budget control, cost centre management, and reporting, our easy-to-use platform gives you 24/7 order access to our 650,000-strong product portfolio while giving you confidence spend is under control.

Our dedicated support team will work closely with you to ensure a seamless set-up, go-live, and ongoing service support. A dedicated Implementation Manager will configure your system to mirror your organisational structure, support you with training, and provide user guides and welcome packs to get you up and running with our system.

Once in 'business as usual' mode, your teams will have access to our dedicated helpdesk support.

Our procurement solutions, PurchasingManager™ and RS eProcurement will help you gain more control and visibility over your PPE orders and spend, while improving reporting and reducing time spent on your procure-to-pay process.

WANT TO BUILD A BETTER WORLD? SO DO WE.

Better World Products

Products with our planet in mind.

Our Better World product range can help you discover and shop for products that represent a greener choice. We've made it easy for you – right here in one place.

Each product is highlighted on the RS website and in this brochure with has our Better World badge; making it easier for you to make a greener purchasing choice that they can trust.

Why buy Better World Products?

Both industry research and our conversations with customers show that businesses are committed to making more sustainable purchasing decisions but that they find this hard.

With Better World Products, our goal is to make it easier by providing access to products that you can be assured meet sustainability standards. We want to make it as straightforward as possible for you to make more sustainable choices – and to have confidence when doing so.

Our Better World products are just part of our environmental journey. Together we can all strive to become more sustainable and make amazing happen for a better world.

Learn more at: nz.rs-online.com/better-world

What criteria do Better World Products have to meet?

We've partnered with trusted third-party consultants to develop a framework that selects products with sustainability improvements and hold relevant sustainability certifications or eco-labels.

If a product displays the Better World Products logo, its manufacturers have improved sustainability in at least one stage of its lifecycle and this improvement has been verified by an internationally recognised sustainability certification or energy efficiency standard.

GREENTEK™

SAME PROTECTION, NOW SUSTAINABLE

NXG
Next Generation Gloves

Safety Mate's latest innovation is the new NXG GreenTek™ environmentally conscious range of gloves which are manufactured using up to 50% recycled yarn. Every pair of GreenTek™ gloves repurposes one to two landfill-bound plastic bottles.

Manufacturing the yarn alternative generates **79% LESS** carbon emissions, and re-uses plastic destined for landfill. The NXG GreenTek™ Recycled range of gloves contain up to **50% RECYCLED** content with no compromise to safety, comfort or value.

GREENTEK™ AIR

A-5139

FEATURES

- + Using more than 50% recycled plastic content per pair = 2 plastic bottles

CleanAIR® PAPR Helmet Assembly

- Polycarbonate shield
- Protection against high speed, high energy particles
- Protection of the head, eyes, face, respiratory and hearing
- Well-balanced, comfortable and robust protection
- Automotive industry, construction, shipbuilding & heavy duty maintenance

241-5521	RPH838a
----------	---------

AIR HOOD FACE SHIELD & AIR PURIFYING RESPIRATOR

- Low weight, compact unit.
- Protection factor (NPF50)
- Comfortable and adjustable headband.
- The ergonomically designed belt unit is light and slim profile to guarantee comfort when worn for long periods of time.
- Kit includes battery charger, belt mounting system and filters.

241-5520	RP6540a
----------	---------

3M 6300 Series Half Mask Respirator

- Provides lightweight, easy-to-use, economical protection
- Facepiece is made from soft, lightweight thermoplastic elastomer
- Head harness assembly and spare parts available

773-4450	Large	6300
774-3833	Gas and Vapour Filter	6051

3M™ Full Facepiece Respirators 6000 Series, Reusable

- Soft, silicone face seal for greater comfort and durability
- Wide field of vision

	Small	6700
773-4454	Medium	6800
773-4463	Large	6900

CleanAIR® UniMask

- The highest class of breathing protection TH3
- Enhanced inner airflow regulation
- Light weight – only 380g
- Excellent ptical quality
- EN 166 class 1

241-5519	UniMask Protective Face Shield	RFU837-CB
----------	--------------------------------	-----------

3M™ 504 Respirator Cleaning Wipes

- Moist towelettes clean dirt and perspiration off facepiece respirators
- Individually packaged and sealed to ensure uncompromised sanitary quality
- Disposable, one-time-use for convenience
- Convenient for respirator hygiene and sanitary protection between uses
- Alcohol-free towelettes contain no alcohol or harsh chemical

777-0450	100 towelettes per box	504
----------	------------------------	-----

Nuisance Dust Mask

- A lightweight hygiene mask
- Economical and ideal for protection against large dust particles
- Aluminium nose-piece can be moulded for comfort and seal
- Ideal for sweeping and non-industrial applications

241-5512	Non-valved, Pack of 10	RES500C-10
241-5510	Non-valved, Box of 50	RES500

3M N95 Respirator Particulate Respirators 8000 Series

- The cupped shape, twin strap design, nose foam and nose clip help to provide comfort and fit over a range of face sizes.
- The 3M 8710 respirator was the first disposable respirator to be certified in AS/NZS 1716

774-3880	P1 Unvalved	8710
774-3886	P1 Valved	8812
774-3899	P2 Unvalved	8210

Nuisance Level Organic Vapor Respirator

- These respirators feature an integrated activated carbon layer that offers relief from levels of nuisance* odours at concentrations below Safe Work Australia exposure standards.
- They can be used for a wide variety of applications ranging from mining to weed spraying to waste sorting.
- The Specialty range provides lightweight, effective, comfortable and hygienic respiratory protection against particles and organic vapours

7743896	Non-valved, FFP1, 15 per pack	9913
7743892	Valved, FFP1, 10 Pack	9913V

P2 Conical Disposable Respirator

- Exhalation valve provides increased air flow and comfort
- Premium conical style disposable respirators
- P2 rating offers protection against mechanically and thermally generated particles
- Soft nose foam ensures custom fit to nose
- Latex free straps give firm and comfortable fit
- Soft inner layer for comfort and fit
- Certified to AS/NZS 1716:2012 P2 standards

241-5517	Valved, 10 masks	RES514

WILL YOUR SAFETY GLOVES MEET THE NEW AUSTRALIAN STANDARD?

Safety Mate has always been serious about preventing hand injuries. That's why we brought a new standard of glove to the Australian market. Now Australian standards are catching up.

The new standard was published in December 2020 as AS/NZS 2161.3:2020 and key features are:

- more accurate simulation of real life cut dangers
- an additional cut (TDM-100) rating and an optional impact rating
- Australian standards mirroring European standard EN388:2016

PERFORMANCE TESTS AGAINST:

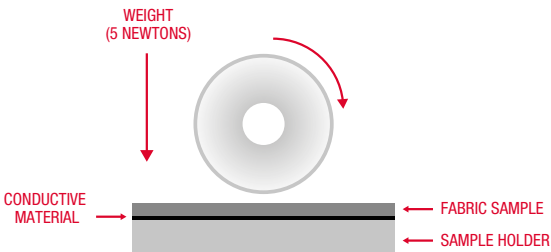

New cut (TDM) resistance levels

Level	Force to cut (Newtons/grams)	Risk*
X	<2 N (203g)	None
A	≥ 2N (203g)	Low
B	≥ 5N (509g)	Low/ Medium
C	≥ 10N (1019g)	Medium
D	≥ 15N (1529g)	Medium/ High
E	≥ 22N (2243g)	High
F	≥ 30N (3059g)	Very High

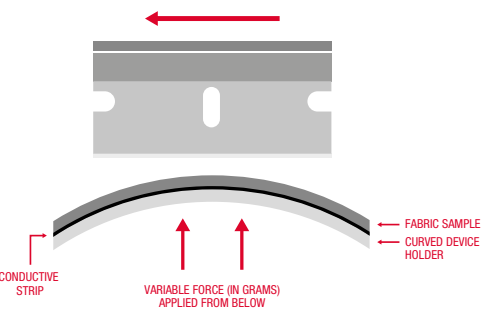

*This is Safety Mate's opinion only. The suitability of all PPE should be risk assessed based on applications

COUP TEST

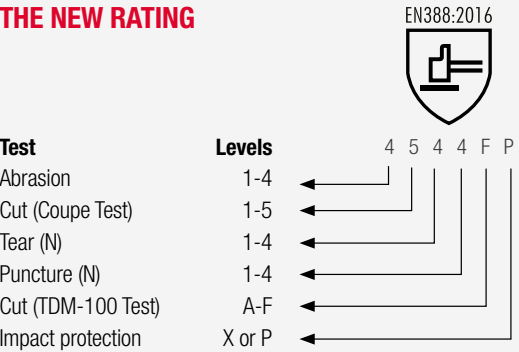

TDM TEST

TRAVEL OF BLADE IN SINGLE DIRECTION NEW BLADE FOR EACH TEST

THE NEW RATING

The new cut test is a game-changer for safety gloves. It will more accurately rate protection where there's a higher risk of cut injuries. This means gloves previously rated at Level 5 cut resistance may only give low to medium protection in some circumstances.

The NXG range of cut-resistant gloves already meets EN388:2016 and includes 8 Cut Level D glove styles, and 3 Cut Level F models. We're ready to assist with risk assessment and hand protection user trials to ensure your workforce are protected. Contact us to discuss the new standards and to arrange a free site glove audit and trials.

AUSTRALIA INDIGENOUS PROGRAM

As an Australian company, we are proud to be implementing our campaign in support and recognition to Aboriginal and Torres Strait Islander people as Australia’s First People.

Ansell has collaborated with Indigenous artist Kristina McKinlay, who has created unique artworks for key HyFlex® styles packaging, each inspired by the important elements of life, the land, the sky and the water; key elements to Australia’s First Nations people in surviving the vast environments across this country for thousands of years.

Ansell donates a percentage of sales from this range to ONELAND, an Indigenous not-for-profit organisation.

uvex x-flow range

built to exceed expectations.

Developed for Australian and New Zealand workers, uvex applied a comprehensive four-layer research process to understand workers and the unique physical and environmental stresses they face.

uvex **bionom** x design system ensures that the uvex x-flow range is engineered to optimise movement efficiency and reduce fatigue. Integrated systems minimise weight and are designed to improve power generation and force transfer with the aim of improving productivity and well-being.

Our **climazone** technology maximises breathability and internal airflow by integrating elements in every part of the footwear to help alleviate the effects of heat stress in hot climates.

uvex **bionom** x convex sole geometry and segmented design is optimised for performance on both smooth surfaces and rough terrain.

Electrically non-conductive sole* and metal free design* is ideal for workers in construction and industries where accidental contact with electrical hazards may occur.

leather upper
and heat resistant sole makes it ideal for workers in heavy application areas that may be exposed to hot material.

uvex seam free heel cradle
for stability and durability.

slip resistant
Sole designed to be slip resistant at heel strike and foot flat.

electrical-resistant (EH)
Sole compound is resistant to electrical current helping to reduce dangers with accidental contact with electricity. Electrical Hazard certified according to ASTM F2413-17.*

ZIP access
Zip side allows easy access and quick exit. Ideal for those that work around hot material and water hazards.

water resistant
Leather upper repellent to water absorption.

composite toecap
Lightweight composite toecap that is metal free, non-conductive, insulative and air-port friendly. Complies with Australian (2210.3), European (EN-ISO 20345) and American standards (ASTM F2413) and must meet the same standards as steel toecaps.

seam free scuff cap
uvex seam free scuff cap for durability.

300° C heat resistance
Heat resistant nitrile rubber outsole is resistant to contact with hot material.

uvex 2 x-flow zip
Lightweight construction that optimises movement efficiency and stability.
The low height and easy access makes uvex 2 x-flow zip ideal for workers in medium application areas that require maximum ankle flexibility without sacrificing support.
Electrical insulating sole makes it ideal for electricians and other trades that may have accidental contact with electricity.

uvex 3 x-flow
The full leather upper and heat resistant sole makes uvex 3 x-flow ideal for workers in heavy application areas that may be exposed to hot material.
Electrical insulating sole and metal free design make it well suited to workers in construction and other industries that could have accidental contact with electricity.
The sole is engineered to perform on smooth and rough surfaces alike.

uvex 3 x-flow zip
uvex 3 x-flow zip is designed to move with the foot and heat away from the body.
Suitable for workers in medium to heavy application areas and particularly workers that may be exposed to electrical hazards.
Unique sole engineering helps provide stability on both smooth and uneven surfaces.

SAFETY BOOTS

Mack TRADIE Range

- Slip-on double gusset boot ideal for the tradesman wanting bang for their buck.
- The TPU outsole provides improved resistance to hydrolysis, microbial attack, oils, acids and organic fats compared to dual density PU soles.

898-8251	Stiff Broom Head, 300mm, Blue
218-6847	Mop Clip

Plastic Flip Top Bin

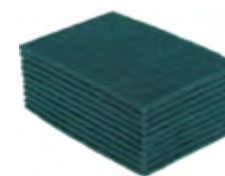

- Durable plastic design that's easy to clean and maintain
- Flip lid for easy access
- Lightweight and portable
- Can be used for a range of waste needs
- Waterproof

178-7697	Blue, 50L
178-7702	Yellow, 50L
178-7698	Green, 50L
178-7699	Red, 50L

Scouring pad

- Extremely durable and very abrasive cloths allow for tough cleaning and scrubbing to remove tough dirt and grease

898-8286	228 x 152 x 7 mm
----------	------------------

Litter Picker

- Grooved jaws with strong grip for removal of stubborn refuse
- Excellent ergonomic design allows the user to rotate jaws in 4 x 90° positions relative to the pistol grip
- Trigger handle with excellent grip and comfort
- Rotatable head

539-359	850mm
---------	-------

Lint-Free Wipers

- Lint-free cotton squares for cleaning delicate computer mechanisms and surfaces.
- Use dry or with a computer cleaning solvent.
- Re-usable

558-795	Box of 100
---------	------------

Dustpan & Brush

- Soft bristles sweep up light dirt and debris with ease
- The rubber lip of the dustpan assists with the collection of dirt
- Hanging hook for easy storage when not in use

898-8214	Yellow
898-8210	Green
560-791	Blue

Heavy Duty Bin Bags

- Plastic disposal bag
- High tensile strength 40 mu Tri-ex blend film
- Packs of 50

771-6563	Black, 90L
771-6569	Yellow, 110 L
771-6572	Black, 80 □ 90L

Clear PVC Strip Door

- Resistant to a wide range of chemicals
- Silicone free
- Abrasion resistant
- High quality PVC material
- Temperature -30°C to +60°C

325-0927	300 mm Width x 3 mm Thick x 3 m Length
325-0826	400 mm Width x 4 mm Thick x 4 m Length

Scott® Blue Hard Roll Towel & Dispensers

- FSC® Ecolabel certified - your guarantee that they are manufactured responsibly at every step of the process
- Food contact certified, detectable blue roll paper towels, for hand drying in contamination critical environments
- High-capacity rolls that control how much tissue you take and help cut costs and waste - ideal for high traffic areas where keeping costs and maintenance down with less frequent refilling is essential
- Slimroll - The compact, slim design of the paper towel roll is ideal for washrooms where space is limited
- Certified by HACCP International

WettaskTM Customisable Wet Wiping System

- A portable, refillable ready-to-use dispensing system of dry wipers that can be pre-moistened with your preferred chemicals, solvents and sanitisers¹
- Reduces worker exposure, solvent waste and evaporation for a safer, more cost-efficient workplace²
- Unlike rags, the wipers are designed to be compatible with commonly-used disinfectants¹

1. Refer to KCP chemical compatibility chart. User has responsibility to test the products with their preferred solvent

226-4102	Hydroknit wipers 60 sheets/roll, 6 rolls +1 bucket per case, 30.5 x 31.7cm	6001
226-4193	Solvents wipers 60 sheets/roll, 6 rolls per case, 30.5 x 31.7cm	6101
226-4103	Meltblown wipers 140 sheets/roll, 6 rolls + 1 bucket per case, 30.5 x 15.2cm	6411
898-8327	Bucket dispensers 4 per Case	7919

Softpack First Aid Kit

- Simple design and a practical layout in a compact size
- Handy soft canvas case with zip

447-737 Red Carrying Case

848794

Maxisafe Work Vehicle First Aid Kit

- Complies with Safework Code of Practice 2012 for Workplaces
- Certified to: ISO 13485
- TGA Approved AUST L 142658
- Australian Manufactured
- Ideal for glove boxes
- Reflective strip for night time visibility
- Heavy duty zippers and pulls
- Can be attached to the belt with stud-closure loop

241-5322

FWV818

Emergency Eyewash Kits

- Eyewash station provides a specialized first aid unit for eye injuries
- Tough plastic translucent case
- Dust-resistant & keeps products clean

447-721 Eyewash Kit with case

856592

447-755 Eyewash with disposable eye baths, 10 units x 15ml

856757

Disposable Linen

- Pro-Val single use throw-over bed sheet for examination, diagnostic and massage tables.
- These products help assure hygiene and confidence between clients/patients.
- White simplifies cleanliness verification before use.
- PP (polypropylene) is softer and more comfortable than paper products.

235-3022 Bed Sheet, 1000 x 1970mm, 100 pack

56001

235-3026 Pillowcase, 700 x 500mm, 200 pack

56041

Traffic Cones, Bollards, Bunting & Barricade Tape

- Non-adhesive barricade tape, 100M roll x 75mm wide made from heavy duty polyethylene
- Traffic cones with flexible PVC construction for maximum safety on impact, robust rubber base for extra stability

241-5225 Barricade Tape, 'CAUTION' BTC710

241-5231 Barricade Tape, 'DANGER' Black on Red/White BTD711

241-5220 Barricade Tape, Yellow & Black BRY712

241-5232 Barricade Tape, Red & White BTR713

241-5219 Barricade Tape, 'DANGER - DO NOT ENTER' BRD714

241-5214 Bunting, Orange, 30m BBF722

241-5226 Traffic Cone, 450mm BTC760

241-5227 Traffic Cone, Reflective, 450mm BTC760R

241-5228 Traffic Cone, 700mm BTC761

241-5229 Traffic Cone, Reflective, 700mm BTC761R

241-5222 T-Top Bollard, 6 kg base BTB758-6

241-5223 T-Top Bollard, 8kg base BTB758-8

Wall Mount Barrier

- Centrifugal braking – prevents belt retracting at excessive speed
- Flexible retractable barrier – doesn't take up valuable floor space
- 48 mm webbing
- Closes off service or entry points

829-9075 'Caution - Do Not Enter' Webbing

Electric Flash Symbol Labels

- Self-Adhesive Electrical Hazard Warning Sign

776-0945 Vinyl Label, 150 mm x 150mm

776-0948 Vinyl Label, 25 mm x 25mm

776-0967 Vinyl Label, 50 mm x 50mm

813-4423 Vinyl Label, 100 mm x 100mm

763-1632 Vinyl Label, 200 mm x 200mm

CRC SMOKE TEST

- Simulates Smoke
- Aerosol Spray Extends User Reach up to 1 metre
- Convenient Package
- No harmful residue
- Plastic Safe

238-7762 Smoke Detector Tester

2105

Over The Spill Station Kit

- Station kit mounts to any flat surface
- Durable construction
- Includes 25 absorbent pads
- Highly visible – Yellow colour
- Black warning message reads – Caution Wet Floor
- Durable construction
- Refillable dispenser

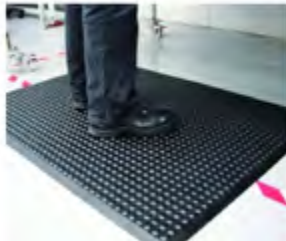

123-6012 Padsx25, Plastic Dispenser

FG425100YEL

RS PRO Ramped Anti-Fatigue Mat

- Anti Fatigue to improve users performance by reducing fatigue by up to 50%
- Anti Slip to reduce and prevent hazards in the workplace
- Loose lay meaning that there is no need for adhesives and they can be moved to accommodate your needs
- Use in wet and dry environments

221-7902 600mm x 0.9m x 16mm

ISO 7010 Vinyl Pictogram Signs

- 100X100MM

813-4454 Crushing of Hands Sign

813-4463 Flammable Material Sign

813-4445 Hot Surface Sign

813-4502 No Smoking Sign

813-4473 Wear Ear Protection Sign

No Climb Solo Series Smoke Detector

- Testing system with a complete range of testing tools.
- Non-flammable for safety in the event of a fire
- Applications: Warehouses, Storage facilities, Hospitals, Office blocks, Factories

146-6824 Smoke Detector Tester, 150ml

SoloA10

2013115 Telescopic Access Pole, 1.13m Reach

Solo101

201-3121 Detector Removal Tool

Solo 200

201-3137 Aerosol Dispenser

SOLO330

RS PRO Standard Weight Absorbent Chemical Spill Pad

- Absorbent pads.
- Chemical spills.
- Industry recognised.
- Yellow colour – absorbs anything including aggressive chemicals.
- Absorbency 0.9 litres per sheet

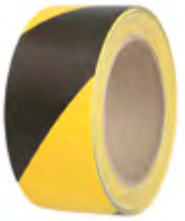

771-6386 48 cm x 38 cm, 100 sheets pack absorbency of 90 litres.

771-6399 48 cm x 38 cm, 20 sheets pack absorbency of 18 litres.

Floor marking tape

- Ideal for use for most environments and applications as a universal indicator and identifier of potential hazards or warnings
- Designed with a plasticised PVC film coating to ensure optimum durability, performance and abrasion-resistance, especially in areas with high traffic

197-1012 Black & Yellow, 50mm x 33m

RS OFFERS YOU MORE

Personal Protective equipment, site safety and hygiene solutions are just a small part of our complete product and services proposition.

We have a complete suite of services, underpinned by a market leading product offer, backed by high service and availability. Combined, this enables us to offer you a complete solution.

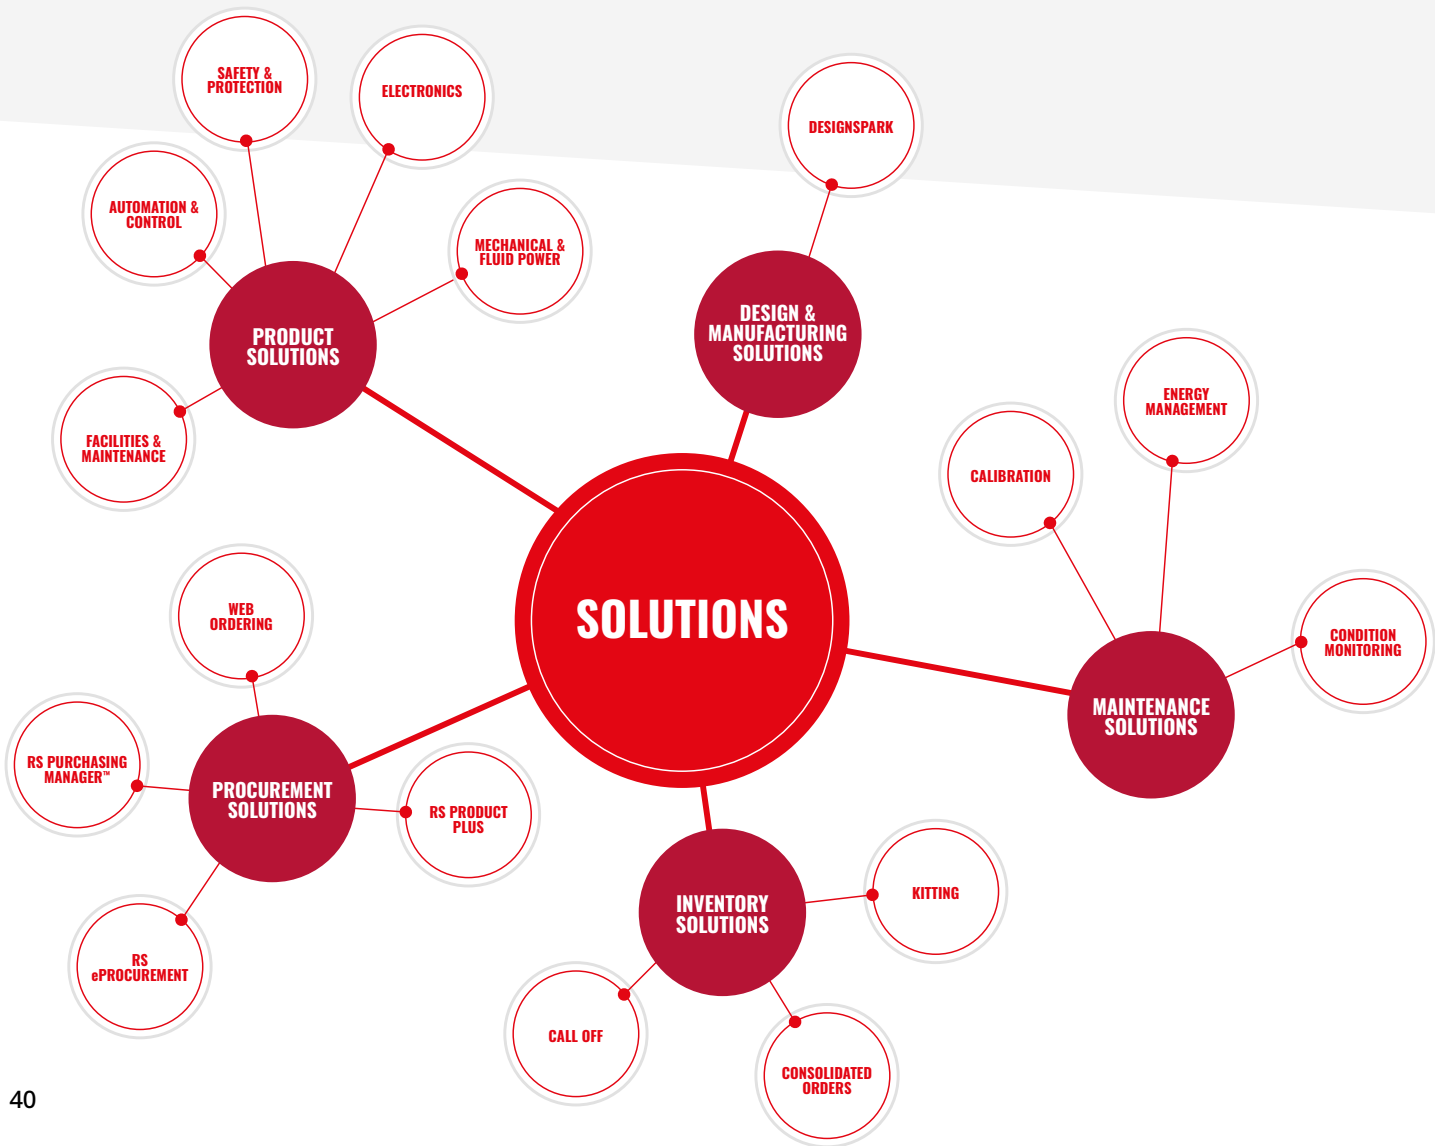

Our solution portfolio reflects the complex needs of our B2B industrial customers through every step of the asset lifecycle. **RS Group has everything you need in one place** and we are keen to reduce the time and process waste associated with the procurement of MROP supplies, to **boost your facility's uptime**. Each of our solutions are supported by a dedicated team of **industry experts**.

- Design & Manufacturing Solutions
- Procurement Solutions
- Inventory Solutions
- Maintenance Solutions
- Customer Order & Delivery Solutions through RS Locals

Our product portfolio has been developed over 85 years of experience **helping engineers, designers and maintainers achieve their goals**. We have built **strong relationships with leading manufacturers** and have a unique position as a multi-brand distributor of electrical, automation, electronics, and maintenance products.

Our product range categories include:

- Automation & Control Gear
- Mechanical Power Transmission
- Pneumatics & Hydraulics
- Cable, Lighting and Electrical Circuit Protection
- Connectors
- Facilities Cleaning & Maintenance
- Test & Measurement
- Personal Protective Equipment & Workwear
- Site Safety
- Semiconductors & Passive Components
- Fasteners, Fixings and Engineering Materials
- Adhesives, Sealants & Tapes
- Hand & Power Tools

LOOKING FOR MORE SAFETY PRODUCTS?

Your priority is to ensure that the workplace, including equipment within it, are safe for you and your colleagues.

It's not just about meeting the legal requirements. By being safety conscious and choosing the right solutions you can avoid accidents, which in turn has a positive impact on both productivity and morale. You can't put a price on safety.

You know that working around machine and electrical equipment poses risks to you, your employees, assets and business. From guides and product selectors to articles, brands and services, we're here to help make Machine and Electrical Safety a priority and ensure you keep everyone safe.

Find more solutions online at nz.rs-online.com/protect

MACHINE SAFETY

Safety Sensing & Switches

It is imperative that gates, covers and other physical guarding is in place before a machine can run. We have a wide choice of brands and products to help ensure this happens.

Operator Safety & Control

These devices ensure a machine or process can only be operated in a safe manner and allow someone to stop machinery quickly if a dangerous situation occurs.

Safety Monitoring

At the heart of every safety system are safety relays and controllers which ensure unsafe conditions are spotted and the process or machine is stopped.

Warning & Guarding

From sounders and beacons to signage and guarding we've got the products and brands to keep you, your employees and contractors safe.

ELECTRICAL SAFETY

Electrical Test & Measurement

From voltage, RCD and portable appliance testers to thermal cameras and proving units. New equipment can also be calibrated before shipment to ensure accuracy of measurements.

Lockout Devices

Lockout devices ensure you have complete confidence that hardware is de-energised, and there is no chance of accidental re-energisation. Take a look at our stocked range to keep you safe.

Electrical Protection

We stock a wide range of devices to protect electrical circuits from overload and users from exposure to dangerous voltages; all available for same day despatch.

VDE Tools

VDE tools are tested for working on live circuits up to 1000Vac and 1500Vdc to help prevent injury to the user from electric shock. Take a look at our wide choice of kits and individual tools.

If you'd like to start exploring the RS Safety Solutions now, head over to our website nz.rs-online.com/safety to browse the vast range.
