

RS PRO Standard Tool Kit

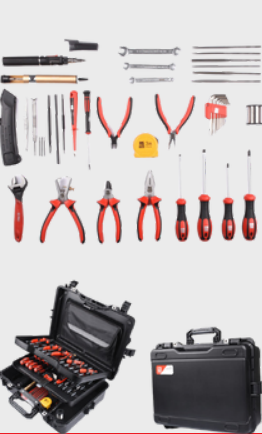

RS PRO 15 Piece Maintenance Tool Kit with Pouch Stock No: 136-3405

Kit Contents

- Multi-Purpose Cutter (Straight)
- Mains Toggle Stripper
- Snap-off Blade Knife
- Stylus LED Flashlight
- Single-Pole Voltage Tester (Short)
- Adjustable Wrench (Phosphate/PVC) - 150 mm
- Black Insulation Tape
- Compact Tape Measure - 3x16 mm/10 ft
- Electronics Slotted Screwdriver - 3x80 mm
- Diagonal Cutter - 140 mm
- Combination Pliers - 160 mm
- Pozidriv Screwdriver - PZ1x80/PZ2x100mm
- Slotted Screwdriver - 4.0x100/6.5x100mm

RS PRO 25 Piece Engineer Tool Kit with Case Stock No: 136-3400

Kit Contents

- Double Open End Wrench-5x5.5/6x7/8x10
- 6 Piece Needle File Set
- Gas Soldering Iron
- Solder Sucker Trimming Knife
- Extra Fine Straight Tweezers
- Jeweller's Driver (4 blades)
- 3 Pcs Trim Tool Kit
- Single-Pole Voltage Tester
- Electronics Slotted Screwdriver -3x80 mm
- Electronics Diagonal Cutter (Small Bevel)
- Compact Tape Measure - 3x16 mm
- Electronics Short Needle Nose Pliers
- 7 Piece Hexagon L Key Set - Metric
- Adjustable Wrench (Phosphate/PVC) -150
- Wire Stripping Pliers-160mm
- Diagonal Cutter-140mm
- Combination Pliers-160mm
- Slotted Screwdriver-4.0x100/6.5x100mm
- Pozidriv Screwdriver-PZ1x80mm/PZ2x100mm

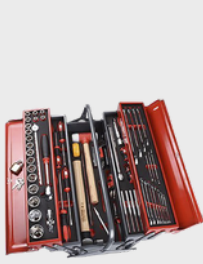

RS PRO 32 Piece Electricians Tool Kit with Case, VDE Approved Stock No: 136-3411

Kit Contents

- Wallboard Saw - 160 mm
- Safety Goggles
- Compact Tape Measure - 3x16 mm / 10 ft
- Claw Hammer - 16 oz.
- Flat Cold Chisel - 16x150/20x175mm, Centre Punch - 4x120 mm
- Hacksaw (in-Handle Fixing System)
- Mini Hacksaw
- Automatic Wire Stripper

- Slotted Screwdriver (Flared Tip) - 10.0x200 mm
- 150 mm Screw Gripping Screwdriver
- Stubby Slotted Screwdriver - 5.5x25 mm
- Stubby Pozidriv Screwdriver - PZ2x25 mm
- Insulated Pozidriv Screwdriver (VDE) - PZ1x80/ PZ2x100 mm
- Insulated Slotted Screwdriver (VDE) - 2.5x75/ 4.0x100 mm
- Long Nose Pliers - 160 mm
- Diagonal Cutter - 160 mm
- Combination Pliers - 200 mm
- RZR Series Cable Shears - 170 mm
- Multi-Purpose Cutter (Straight)
- Adjustable Wrench (Phosphate/ PVC) - 200 mm
- Water Pump Pliers (Box Joint/ PVC) - 250 mm
- Water Pump Pliers (Box Joint/ PVC) - 300 mm

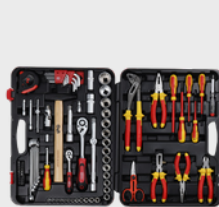

RS PRO 82 Piece Mechanical Tool Kit with Box Stock No: 136-3412

Kit Contents

- Flat Chisel 21x150mm/ Centre Punch - 4x120mm/Parallel Pin Punch 3,4,5,6x150mm
- Soft Face Hammers
- Ball Pein Hammer - 16 oz.
- Stainless Steel Rules-30mm
- Water Pump Pliers (Box Joint/ PVC) - 250 mm
- Compact Tape Measure - 3x16 mm / 10 ft
- Feeler Gauge (Metric) 0.05-1.00mm
- Trimming Knife
- Double Open End Wrench - 5x5.5/6x7/8x10 mm
- 12 Piece Combination Wrench Set
- 1/2" Dr. 6-Point Sockets - 18 Pieces
- 1/2" Dr. Quick Release Reversible Ratchet
- 1/2" Dr. Sliding T-Handles
- 1/2" Dr. Extension Bar-125mm
- 1/2" Dr. Extension Bar-250mm
- 1/2" Dr. Universal Joint • 18 Piece Hexagon L Key Set - Metric / Imperial
- Long Nose Pliers - 160 mm
- Diagonal Cutter - 160 mm
- Combination Pliers - 180 mm
- Pozidriv Screwdriver - PZ1x80 mm/PZ2x100 mm
- Slotted Screwdriver-4.0x100/5.5x125/6.5x150/8.0x150mm
- Single-Pole Voltage Tester (Short)
- Stubby Slotted Screwdriver - 5.5x25 mm/Stubby
- Pozidriv Screwdriver - PZ2x25 mm
- Padlock

RS PRO 88 Piece Electricians Tool Kit with Case, VDE Approved Stock No: 734-8885

Kit Contents

- 1/2" DR metric hex sleeves 14mm, 15mm, 16mm, 17mm, 18mm, 19mm, 20mm, 21mm, 22mm, 23mm, 24mm, 27mm, 30mm, 32mm
- 1/4" DR metric Hex Socket 4mm, 4.5mm, 5mm, 5.5mm, 6mm, 7mm, 8mm, 9mm, 10mm, 11mm, 12mm, 13mm
- Metric Ribbed Wrench 8mm, 10mm, 12mm, 13mm, 14mm, 17mm
- Hexagonal Plate 1.5mm, 2mm, 2.5mm, 3mm, 4mm, 5mm, 6mm, 8mm, 10mm
- 1/2in Extension (125 & 250mm)
- 1/2in Plug Wrench (16 & 21mm)
- 1/4in Extension (55 & 100mm)
- 1/4in Connector
- 1/2in & 1/4in Reversible Ratchet
- 1/2in & 1/4in Universal Joint
- 1/2in & 1/4in Sliding T bar
- 6in Insulated Slip Joint Pliers
- 6in Insulated Nipper Pliers
- 6in Insulated Wire Strippers
- 7in Insulated Wire Cutters
- Insulated Water Pump Pliers
- Electricians Shears
- 250V Test Pencil
- 300g Hammer
- 5m Tape Measure
- Driver Bits (x20)
- Insulated Screwdrivers (x5)

- Face Masks

Service Tools Solution

Mechanics and technicians require a variety of tools to perform their tasks effectively, whether they are working on vehicles, machinery, or electronic devices. They need a comprehensive toolkit that includes a variety of hand tools, power tools, diagnostic tools, and specialty equipment. Proper safety gear is essential to ensure protection while working with machinery or hazardous substances. Regular maintenance of tools and equipment is also crucial for ensuring a smooth workflow.

SERVICE TECHNICIAN TOOL KIT

Essential for Day-to-Day Repairs and Maintenance:

1. Hand Tools

- **Wrench**
 - **Socket Wrenches:** Includes ratchets and a set of sockets for various sizes of fasteners.
 - **Combination Wrenches:** Wrenches with an open end and a boxed end for versatility.
 - **Adjustable Wrenches:** Useful for different sizes of fasteners.
 - **Torque Wrench:** To tighten fasteners to a specific torque value.

- **Screwdrivers:**

- **Flathead** and **Phillips-head** screwdrivers in various sizes.
- **Precision screwdrivers** for small, delicate work.

- **Pliers:**

- **Needle Nose Pliers:** For gripping and bending in tight spaces.
- **Channel Lock Pliers:** Adjustable pliers for gripping different sizes of objects.
- **Cutting Pliers:** For cutting wire and small components.

- **Hammers:**

- **Ball-peen / Rubber Hammer:** Common in mechanics for metalworking, to avoid damage when tapping parts into place.

2. Power Tools

Power tools make many tasks faster and easier, especially for larger jobs.

- **Cordless Drill:** For driving screws and drilling holes.
- **Impact Wrench:** For heavy-duty fastener removal and installation (often used for car tires).
- **Angle Grinder:** For cutting, grinding, or polishing surfaces.
- **Electric Soldering Iron:** Used for repairing or assembling electronic components.

3. Diagnostic Tools

These tools are essential for diagnosing problems, particularly in vehicles and machinery:

- **OBD-II Scanner:** For diagnosing vehicle engine problems by reading codes from the car's computer system.
- **Multimeter:** For measuring voltage, current, and resistance in electrical systems.
- **Compression Tester:** For testing the engine's compression, commonly used in automotive diagnostics.
- **Fuel Pressure Gauge:** Used to measure fuel system pressure in vehicles.
- **Smoke Machine:** For finding vacuum and exhaust leaks in engines.

4. Storage and Organization Tools

Keeping tools organized and easily accessible can improve efficiency.

- **Toolbox:** A durable box, bag or chest to store all tools safely and accessibly.

Safety Gear - Personal Protective Equipment (PPE)

The right safety gear is crucial for preventing injuries and maintaining a safe working environment. Depending on the specific task and environment, mechanics and technicians should choose appropriate PPE to protect against physical, chemical, and environmental hazards.

Head Protection

Hard Hat/Helmet: Protects the head from falling debris, impacts, or accidents in environments with overhead hazards.

Eye and Face Protection

Safety Glasses / Goggles: To protect eyes from flying debris, dust, chemicals, or sparks during grinding or cutting.

Hearing Protection

Earplugs: Inserted into the ear canal to block out harmful noise, especially in loud environments.

Hand Protection

Work Gloves: Essential for protecting hands from cuts, abrasions, chemicals, and heat. There are various types.

Foot Protection

Steel-toe Boots: Provide protection against heavy objects or machinery that may fall on the feet.

Metatarsal Guards: Additional protection on the top of the foot, especially in environments with heavy equipment.

Body Protection

Coveralls: Full-body protection that helps to shield workers from dirt, grease, chemicals, and other hazardous materials.

Respiratory Protection

Dust Masks: For protecting against inhaling dust and debris, often used in environments like automotive repair or when grinding.

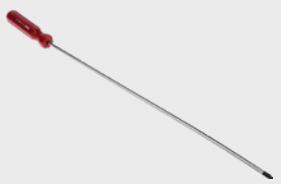

Fall Protection

Safety Harness: Used for workers who need to work at heights, such as in overhead repairs, or when working on large machinery.

Lanyards and Fall Arrestors: Attach to the safety harness to prevent falls by stopping a worker from falling too far.

Anchor Points: Secure points where fall protection systems (like a harness or lanyard) can be attached.

Customized Technician & Mechanic Tool Kit

RS PRO Polyester Backpack with Shoulder Strap 340mm x 220mm x 410mm Stock No: 788-7211	RS PRO Polyester Tool Bag with Shoulder Strap 310mm x 200mm x 210mm Stock No: 788-7205	RS PRO Plastic Tool Box, 494 x 250 x 263mm Stock No: 833-5988
