

Staff Housing

Ruapehu College are privileged to be able to offer staff subsidised housing. The board own 14 school houses, and these are available for teachers to rent at a reduced rate. Our houses range from 1-bedroom flats to three bedroom homes, all with sheds and/or garages.

They are all insulated, and have a fire box and/or a heat pump to keep them warm.

These are regularly maintained by our property management team.

All of our houses are handily located to the school, within walking distance, and are close to town.

Ohakune is a thriving wee town with an abundance of activities. Initially a forestry and market garden hub eventually swayed to a ski resort town with Turoa and Whakapapa being established. In recent years a boom of cycling and hiking has ensured what was at one time a very seasonal town is now an all year round activity hub.

A town that is central with cities within an hour drive in most directions you are able to explore what the central north island has to hold.
