Single Play Netball System Manual

REQUIRED MATERIALS:

- Two (2)
  Capable Adults
- Garden Hose or Sand
- (2 each) Wrenches and/or Socket Wrenches and Sockets.
  1/2"
- Allen Wrench
  1/8"

OPTIONAL TOOLS AND MATERIALS:

- Large and Small Adjustable Wrenches

NOTE:
Position unit at least 6’ 7” (2 meters) from buildings, water and electricity. For family and domestic use only.

Write Model Number From Box Here:

Adult Assembly Required.

This manual, accompanied by sales receipt, should be saved and kept on hand as a convenient reference, as it contains important information about your model.

WARNING!
READ AND UNDERSTAND OPERATOR’S MANUAL BEFORE USING THIS UNIT.
FAILURE TO FOLLOW OPERATING INSTRUCTIONS COULD RESULT IN INJURY OR DAMAGE TO PROPERTY.

WARNING!
NOT SUITABLE FOR CHILDREN UNDER THREE YEARS OF AGE DUE TO SMALL PARTS/CHOKING HAZARD.

WARNING

Owner must ensure that all players know and follow these rules for safe operation of the system.

- **DO NOT HANG** on the rim or any part of the system including support braces or net.
- During play keep player's face away from the rim and net. Serious injury could occur if teeth/face come in contact with rim or net.
- Do not slide, climb, shake or play on base and/or pole.
- After assembly is complete, fill system completely with water or sand. Never leave system in an upright position without filling base with weight, as system may tip over causing injuries.
- When adjusting height or moving system, keep hands and fingers away from moving parts.
- Do not allow children to move or adjust system.
- During play, do not wear jewelry (rings, watches, necklaces, etc.). Objects may entangle in net.
- Surface beneath the base must be smooth and free of gravel or other sharp objects. Punctures cause leakage and could cause system to tip over.
- Keep organic material away from pole base. Grass, litter, etc. could cause corrosion and/or deterioration.
- Check pole system for signs of corrosion (rust, pitting, chipping) and repaint with exterior enamel paint. If rust has penetrated through the steel anywhere, replace pole immediately.
- Check system before each use for proper ballast, loose hardware, excessive wear and signs of corrosion and repair before use.
- Check system before each use for instability.
- Do not use system during windy and/or severe weather conditions; system may tip over. Place system in the storage position and/or in an area protected from the wind and free from personal property and/or overhead wires.
- Never play on damaged equipment.
- When moving system, use caution to keep mechanism from shifting.
- Keep pole top covered with cap at all times.
- Do not allow water in tank to freeze. During sub-freezing weather add 2 gallons of non-toxic antifreeze, sand or empty tank completely and store. (Do not use salt.)
- While moving system, do not allow anyone to stand or sit on base or have added ballasting on base.
- Do not leave system unsupervised or play on system when wheels are engaged for moving.
- Use Caution when moving system across uneven surfaces. System may tip over.
- Use extreme caution if placing system on sloped surface. System may tip over more easily.
- See instruction manual for proper installation and maintenance.
SAFETY INSTRUCTIONS

FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS MAY RESULT IN SERIOUS INJURY OR PROPERTY DAMAGE AND WILL VOID WARRANTY.

Owner must ensure that all players know and follow these rules for safe operation of the system.

To ensure safety, do not attempt to assemble this system without following the instructions carefully. Proper and complete assembly, use, and supervision are essential for proper operation and to reduce the risk of accident or injury. A high probability of serious injury exists if this system is not installed, maintained, and operated properly.

• If using a ladder during assembly, use extreme caution.
• Check base regularly for leakage. Slow leaks could cause the system to tip over unexpectedly
• Seat the pole sections properly (if applicable). Failure to do so could allow the pole sections to separate during play and/or during transport of the system.
• Climate, corrosion or misuse could result in system failure.
• If technical assistance is required, contact Customer Service.

Most injuries are caused by misuse and/or not following instructions.
Use caution when using this unit.

NOTICE TO ASSEMBLERS
Adult Assembly Required. Dispose of ALL packaging materials promptly. As with all children’s products, periodically inspect for loose small parts.

Assembled unit MUST be filled with water at ALL times.

ALL systems, including those used for DISPLAYS, MUST be assembled and ballasted with sand or water according to instructions. Failure to follow instructions could result in SERIOUS INJURY. It is NOT acceptable to devise a makeshift weight system.

IMPORTANT!
Remove all contents from boxes.
Be sure to check inside pole sections;
hardware and additional parts are packed inside.

Get to know the basic parts of your system...

- **RIM**
- **TOP POLE**
- **MIDDLE POLE (UPPER)**
- **MIDDLE POLE (LOWER)**
- **BOTTOM POLE**
- **STRUTS**
- **BASE**
1. Correctly identify each pole section.  SEE BELOW

- BOTTOM
- MIDDLE (LOWER)
- MIDDLE (UPPER)
- TOP
2. Align bottom pole (6) with set screw hole towards rear of base. Then assemble bottom pole (6) to base (1) by sliding axle (2) through base (1) and wheels (3) as shown.

**IMPORTANT!**

**NOTE ORIENTATION.**

**NOTE:**

SET SCREW HOLE LOCATION FACES TOWARD REAR OF SYSTEM
3. Secure base struts (4) to bottom pole (6) using bolt (15) washer (16) and nut (13).

4. Rotate struts down and bend strut outward to line up with hole on base as shown. Secure free end of base strut to base with bolt (17), washer (16), and nut (13) as shown. Repeat for other side.
5. Insert lower middle pole (7) into bottom pole (6). Align slot and tab to orient the welded nuts to face the rear of system and use set screw (18) to secure in place.

IMPORTANT!
NOTE ORIENTATION.
6. Insert top pole (9) into upper middle pole (8). Align slot and tab to orient the welded nut opposite of the top pole’s plate and use set screw (18) to secure in place. Install pole cap (14) into top pole (9).

IMPORTANT!
NOTE ORIENTATION.
7. Install rim (10) onto top pole (9) using bolt (12), washer (16) and nut (13) as shown below.

8. Install net (11) on rim (10).
9. Slide the adjustable upper pole assembly (from steps 6-8) into lower middle pole (7). Align holes to face toward rear of system and use thumbscrew (19) to secure in extended position by aligning the dimple with thumbscrew (19). Use the set screw (18) to lock the upper pole assembly in place.
10. Place assembled unit in desired location. Fill base completely with water (7.2 gallons / 27.25 liters) or sand (approx. 60 lb./27.2 kg) and snap base cap (5) in place.

11. Apply height adjustment label (21) to front of pole as shown.

**CAUTION!** If using sand:
1 gallon of antifreeze is not required.

**NOTE:** Add one gallon (3.78 liters) of non-toxic antifreeze in sub-freezing climates.
