SARR Policy 21-01

February 1, 2021

### **COVID Reporting Policy**

1. The Board of Directors for the San Antonio RoadRunners (SARR) has voted and approved this policy letter. This policy is effective immediately and can only be changed or rescinded by a majority vote of the Board of Directors.
2. This policy establishes that any Board member, coach, race director, Meetup lead, or any person in a leadership role for SARR who discovers that a person who has tested positive for COVID and has participated in an in-person SARR activity where exposure to other participants was possible, then the leader must fill out a SARR Incident Report and inform a Board member.
3. The Board will determine who should communicate to participants who attended the same event/activity as the person who has COVID. This communication should include dates/times of the event(s), when SARR found out about the possible COVID exposure, and a reminder of the SARR COVID safety guidelines. This communication should NOT include the name of the person who has COVID. The SARR Incident Report will be provided to the person assigned to distribute the message.
4. If it is known that another participant had close or prolonged contact with the COVID participant, then those persons should be contacted individually to let them know.
5. SARR will not offer, nor is it expected to pay for any COVID testing that participants may decide to do as a result of the possible exposure since SARR activities are completely voluntary and the public is aware of COVID risks of in-person activities.
6. All SARR Board members, all head coaches of the current training season, all applicable race directors, and all Meetup coordinators of current Meetups, shall be notified of the incident for their awareness.
