

San Antonio RoadRunners San Antonio, TX

Hello SARR Members,

I hope everyone is off to a great 2024! Last month I gave a lengthy recap, so I want to keep January's newsletter short. Plus, we have a Marketing email coming out tomorrow that is full of great info on our upcoming events. Be on the lookout for that!

We had a great 50th year in 2023 and 2024 is starting off strong as well! If you're involved in one of our Winter training programs, I hope you're enjoying it because they are going great! If you've seen the many pictures every week, you can see how much fun people are out there having while making positive improvements in their lives. We have so many SARR runners out on the roads and trails on any given day! Keep up the great work!

I would like to ask that if you have been in SARR awhile and you see new people out there in training, please help them feel welcome and show them what our club is all about. We support and encourage each other and cheer for each other as we accomplish great things! Also, if you're new to our club or any of our programs, I challenge you to get out there and meet people!

Of course, we don't just run, we make an impact within the community. We have a series of trash pickups in McAllister Park organized by our Off-Road training team as well as our recurring Adopt-A-Park hosted by our club members. Dates and times of these events are posted on various platforms (Facebook, Meetup, email). We also host various scheduled shoe/clothing drives to gain donations to Street2Feet. You show that SARR is a positive force within our community.

This weekend: We have the Monthly Fun Run this Saturday, February 3rd at McAllister Park, (Al Becken Pavilion) and our first race of the year, the second annual Great Greenway Marathon Relay is this Sunday February 4th.

Remember, be on the lookout for the marketing email tomorrow as it has some good info on our upcoming events. Additionally, we have the 2024 racing and training schedules on the SARR Website, so please frequent that for updates. Link [HERE](#)

Take care and enjoy those miles!
