Untitled, 2020

Animation. 3'48" (loop)

Metals / Alloys, 2016

Screen-print on paper

53 x 36.5 cm

Listing of metal alloys composites of miniature timer mechanisms for German anti-air raid rockets that the Messap commando prisoners at Neuengamme were deployed in constructing; intense precision of the work using tweezers and magnifying glass brought migraines and eye strain.

Untitled (Perspective), 2020. Re-edit of *British Ministry of Information* archives. 3'20" (loop)
