

Paisley attract top teams

PAISLEY Volleyball Club in association with the Wilson Group of Companies and Hitachi Power Tools are holding their first international tournament at Linwood Sports Centre this Saturday and Sunday.

The Wilson International Volleyball Tournament will implement a new package of FIVB rule interpretations with the aim of keeping rallies going and increasing the chances of the serving team winning the point. This should lead to more

attractive and spectacular games for both players and spectators.

This arrangement has attracted the attention of the Northern Ireland international squads and German volleyball club, Spielvereinigung Furth, who, along with provincial Scottish clubs, are sending both mens and ladies teams to take part in their respective sections of the tournament.

Furth is Paisley's twin town in Germany and the volleyball clubs have built up a good relationship in the last four years.

Paisley having taken part in tournaments over there in 1989 and 1990 and culminating in this first visit by their German counterparts.

In this the Year of Sport Paisley Volleyball Club gratefully acknowledge the support of the Renfrew District Council Sport and Leisure Department and the Renfrew District Sports Advisory Council. All spectators will be made most welcome at what is hoped will be the forerunner of an annual event.
