LIVING WITH SHARKS BY DR. KEVIN BOSWELL AND DR. MARK BOND
Marine Sciences Program at
Florida International University

The FIU Marine Sciences Program features leading scientists in predator conservation, population and ecosystem dynamics, and restoration of marine habitats. Our Medina Aquarius Program houses the world's only underwater research laboratory — the Aquarius Reef Base. Our shark researchers are conducting the largest global shark survey ever attempted — Global FinPrint. And our Everglades scientists lead the Florida Coastal Everglades Long-Term Ecological Research program.
