

Welcome to the Moon Marble Company. If you've lost your marbles or just want to find some you've come to the right place. When you visit us you can choose from thousands of machine made marbles in beautiful colors and styles. The sizes range from tiny peewees to 50 mm toe breakers.

For the art glass enthusiasts we have a huge selection of art glass marbles. They come from glass studios from California to West Virginia as well as from the artists that regularly give demonstrations here at the Moon.

There's a lot more than just marbles at the moon. No matter what your age when you wander the store you will find toys and games from your childhood. There are games from many eras, puzzlers to stir your brain, a magic rack for the tricksters, goofy and funny items and much, much more.

Moon Marble Company was founded in 1997 quite by accident. As a sideline to our woodworking business we enjoyed making toys and needed marbles for game boards. In the beginning the marble store was crammed into the small area at the front of the building and didn't even keep regular hours. As time went on word got out that there were marbles available in Bonner Springs and folks started coming to find them. Gradually the store spread out to encompass most of the building as the inventory of marbles, toys and games increased. Before we knew what happened we were in the "Marble Business".

About that time, we thought it would be interesting for folks to see how marbles are made. After plenty of effort, trial and error we were able to begin offering demonstrations to our visitors. We now have several artists who demonstrate their skills at the Moon.
