

EAST SHORE LODGING

Green Policies

East Shore Lodging is committed to a sustainable future and has implemented a number of green practices that are environmentally and socially responsible.

On Property

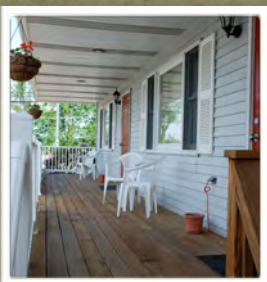

- ▶ 3 kW Photovoltaic Solar System– installation of 18 Sharp panels and an SMA inverter in June 2010 that produces 3150 watts of electricity to a portion of the business office.
- ▶ Recycling Dumpster – in addition to regular garbage removal, we've added a recycling dumpster to the property. Waste Management allows for commingling of the recycling so no need to sort glass, aluminum, plastic & paper.

In Room:

- ▶ Recycling Cards – encouraging guests to recycle their in-room garbage.
- ▶ Recycling Garbage Cans – in all rooms so guests have a place to put their recycling.
- ▶ Turn off Lights, TV, HVAC signs – encouraging guests to turn everything off when leaving the room.
- ▶ Towel Signs - encouraging guests to re-use their towels, hang on towel rack.
- ▶ CFL bulbs in all the rooms – replacement of incandescent light bulbs with CFL light bulbs.
- ▶ Soap recycling program - donation of used soap to Clean The World, a non-profit organization that donates soap to domestic homeless shelters and impoverished countries.

In Office

- ▶ Blue recycling containers in office - office paper, newspaper, mail, etc.
- ▶ CFL light bulb recycling - old CFL's are put in recycling bucket in recycling area.
- ▶ Battery recycling – basket in the recycling area for batteries.
- ▶ Toner cartridge recycling – company comes in and picks up used cartridges.
- ▶ Shopping bags – encourage customers to purchase the Envirosax re-usable shopping bags.
- ▶ Styrofoam cups, plates & bowls - replaced the Styrofoam coffee cups with paper. Removed the Styrofoam plates & bowls from the breakfast room and replaced them with glass washable bowls and plates (with the exception of the high traffic summer season, we use paper products). Provide ceramic coffee mugs for guest & staff use.
- ▶ Participation in the county electronics & appliance recycling programs – bring TVs, water coolers, refrigerators, computers, printers, etc. to the program and dispose of items properly.
