APPENDIX B

The following sheets summarize the facility information collected as part of the consultant team's review of the Port's *2011 Operations and Maintenance Activity Biennial Condition Report of Port Facilities* prepared by De Rose Design Consultants as part of the 2011 biennial inspection of building facilities at the Port. This appendix provides a detailed breakdown of the repair costs associated with each building identified in Volume 1, Section 3 (buildings) of that report, categorizing items into immediate, moderate, and low priority.
