### **Convention Center Site Visits**

The Sacramento Convention Center Expansion and Renovation team conducted site visits of the Anaheim Convention Center, San Jose Convention Center, and the San Francisco Moscone Convention Center on Monday, Jan. 15, and Tuesday, Jan. 16. The purpose of these site visits was to tour the exhibit halls, ballrooms, and meeting spaces and compare them to the proposed Sacramento Convention Center Expansion & Renovation concept design. The Sacramento Project Team also had the opportunity to ask each convention center operator questions regarding their individual expansion and renovation projects.

### **Stakeholder Committee Meeting Update**

During the Jan. 17 meeting, Populous (project architect) provided an update on the design of the Sacramento Convention Center Expansion and Renovation that included a 40,000 square foot ballroom. This ballroom - originally proposed as a second phase to the project - will now be completed in one phase. New meeting spaces on both the East and West sides were also introduced. Stakeholders provided support for the draft schematic design, and in early February, Populous will complete the schematic design. Please note that the exterior of the project continues to evolve and it will be refined during the next phase of design (design development phase).

It is anticipated that the next Convention Center Stakeholder Committee Meeting will be held in March. Meeting appointments will be sent out to Steering Committee and User/Technical Advisory Committee members next month.

### **Private Operations Exploration**

City staff received an updated proposal from the Kings, SMG, and Live Nation this week. This proposal is currently being reviewed by City staff and its consultant team, and an update will be provided to City Council in March.
