

OUR COMMITMENT

The Virginia Beach Convention Center is committed to preserving our environment. As such, we have made several efforts to minimize our carbon footprint. This means we strive to reduce our energy consumption and waste, we recycle, purchase eco-friendly products, and encourage our clients, vendors and guests to help us conserve.

We reward our guests who carpool and drive energy efficient vehicles by designating premium parking spaces specific to their use. By distinguishing our guests who choose alternative methods of transportation including biking and riding Hampton Roads Transit's (HRT) hybrid buses, we hope to lead by example and motivate others to conserve.

To review a full list of our green initiatives and our guidelines for hosting green events, please visit vbconventioncenter.com/green.
