The rights associated with a User Seat include the ability to log in, access, and utilize the features and functionalities provided by the Asset Platform in accordance with these Terms.
- 6.4. Customer pays a discounted seat price quoted as USD per User Seat per month ("**Monthly Seat Price**"). The Monthly Seat Price is discounted based on the number of Included User Seats. Unless otherwise agreed the Monthly Seat Price is 12.5 USD per User Seat per month.
- 6.5. Customer pays an annual minimum base price for access to the Asset Platform ("**Base Price**"). The Base Price is calculated as 12 months times the Included User Seats times the Monthly Seat Price. Example: 12 months x 20 User Seats X 12.5 USD per month per user = 3000 USD per year.
- 6.6. During the annual contract period, if the number of User Seats at the end of a calendar month exceeds the Included User Seats, a separate invoice is issued to compensate for the number of additional User Seats in use. Example 1: Customer has 25 User Seats in use at the end of the month, 20 Included User Seats, and thus is issued an invoice for $(25 - 20) * 12.5 = 62.5$ USD. Example 2: Customer has 15 User Seats at the end of the month and thus no additional invoice is issued for that month.
- 6.7. Upon written request, Customer can decide to increase the Included User Seat within the contract period. In this case, an additional invoice is issued in which the additional seats are pro-rated based on the remaining months in the contract period. Example: After 3 months of agreeing to Terms, Customer requests an additional 5 Included User Seats with a Monthly Seat Price of 12.5 USD per month and is thus invoiced: $5 \text{ Seats} * 9 \text{ months} * 12.5 = 562,5$ USD.
