

CN-CSAFE

CYBERSAFE

DURATION	LEVEL	TECHNOLOGY	DELIVERY METHOD	TRAINING CREDITS
Half Day	Fundamentals	Cyber Security	Classroom , Virtual or Onsite	NA

INTRODUCTION

Regardless of your computer experience, this class will help you become more aware of technology related risks and what you can do to protect yourself and your organization from them. This course will help you to:

- Understand security compliance needs and requirements.
- Recognize and avoid phishing and other social engineering.
- Recognize and avoid viruses, ransomware, and other malware.
- Help ensure data security on computers, mobile devices, networks, the Internet, and in the cloud.

In addition, you will use discussions, case studies, and the experiences of your instructor and fellow students to explore the hazards and pitfalls of technology and learn how to use that technology safely and securely.

AUDIENCE PROFILE

This course is designed for you as a non-technical end user of computers, mobile devices, networks, and the Internet, to enable you to use technology more securely to minimize digital risks. This course is also designed for you to prepare for the Certified CyberSAFE credential.

PREREQUISITES

To ensure your success in this course, you should have experience with the basic use of conventional end-user technology, including desktop, laptop, or tablet computers; mobile phones; and basic Internet functions, such as web browsing and email.

COURSE OBJECTIVES

In this course, you will identify many of the common risks involved in using conventional end-user technology, as well as ways to use it safely, to protect yourself from those risks. You will:

- Identify the need for security.
- Secure devices like desktops, laptops, smartphones, and more.
- Use the Internet securely.

COURSE TOPICS

Lesson 1: Identifying the Need for Security

- Identify Security Compliance Requirements
- Recognize Social Engineering and Avoid Phishing and Other Attacks

Lesson 2: Securing Devices

- Maintain Physical Security of Devices
- Use Passwords for Security

Lesson 3: Using the Internet Securely

- Maintain Physical Security of Devices
- Use Passwords for Security

ASSOCIATED CERTIFICATIONS & EXAM

This course prepares delegates to write the CyberSAFE CBS-410 Exam.
