### INTRODUCTION

The Official CompTIA® A+® Core 2 course provides the background knowledge and skills students will require to become successful A+ technicians. It will help students prepare to take the CompTIA A+ Core 2 certification examination (exam numbers 220-1102), which counts as a credit to attaining the CompTIA A+ certification.

CompTIA A+ certified professionals are proven problem solvers. They support today's core technologies from security to cloud to data management and more. CompTIA A+ is the industry standard for launching IT careers into today's digital world. It is the only industry recognized credential with performance-based items to prove pros can think on their feet to perform critical IT support tasks in the moment. It is trusted by employers around the world to identify the go-to person in end point management and technical support roles.

### AUDIENCE PROFILE

This course is designed for individuals who have basic computer user skills and who are interested in obtaining a job as an entry-level IT technician.
