

HW-HCSEPSST

HUAWEI CERTIFIED SPECIALIST EXPERT (HCSE)-Presales-Storage v1.0

DURATION	LEVEL	TECHNOLOGY	DELIVERY METHOD	TRAINING CREDITS
5 Days	Pre-sales	Storage	ILT/VILT	Huawei Voucher

INTRODUCTION

HCSE-Presales-Storage is a Huawei certification designed for sales professionals of partner companies who sell Huawei storage products, as well as IT professionals aiming to obtain the HCSE-Presales-Storage certification. It provides in-depth knowledge of Huawei storage solutions, including flash storage, scale-out storage, and data protection, with a focus on planning, designing, and applying storage solutions in scenarios such as databases, virtualization, containers, and backup.

AUDIENCE PROFILE

- For sales professionals of partners who sell the Huawei storage product
- Those who want to obtain the HCSE-Presales-Storage certification

PREREQUISITES

- None

COURSE OBJECTIVES

After completing this course, delegates will be able to:

- obtain an in-depth understanding of Huawei storage-based solution
- know the design principle of Huawei storage solutions
- have the capability to plan and design storage solution

COURSE CONTENT

Module 1: Oracle Storage Solution

- Basic Knowledge of the Oracle Database
- Analysis of Storage Requirements in Different Oracle Scenarios
- Complete Solution Planning and Design for Oracle Database Scenarios

Module 2: VMware Storage Solution

- Introduction to VMware Virtualization
- VMware Virtualization Storage Features and Huawei Storage Solutions
- VMware Virtualization Storage Solution Planning and Design

Module 3: Container storage solution

- Container Knowledge and Application Scenarios

- Container Storage Solution
- Container Storage Solution Planning and Design

Module 4: Backup storage solution

- Basic Knowledge and Technical Principles of Backup
- Huawei Backup Solutions
- Backup Solution Design Methodology

Module 5: Storage DR Solution

- Basic DR Concepts and Trends
- Key Technologies of Huawei Storage DR Solution
- Storage DR Solution Planning and Design

Module 6: Storage Ransomware Protection Solution

- Ransomware Basics
- Architecture and Key Technologies of Huawei

Ransomware Protection Storage Solution

- Planning and Design of Huawei Ransomware Protection Storage Solution
- Emergency Restoration Process

Module 7: Object storage Solution

- Typical Application Scenarios of Object Storage
- Introduction to Huawei Object Storage Products and Features
- Planning and Design for Object Storage Projects

Module 8: Video Storage Solution

- Introduction and Development Trend of Video and Image Storage Services
- Introduction to the Scenario-based Solutions of Huawei Video and Image Storage

- Solution Planning and Design for Video and Image Storage Projects
- Course Summary

Module 9: HPDA Storage Solution

- HPDA Scenarios
- Solutions and Key Capabilities
- HPDA Solution Design

Module 10: DCS Data Center Virtualization Solution

- Insights into Data Center Construction Trends
- Introduction to DCS
- DCS Planning and Design
- DCS Demo and Marketing Suite

Module 11: Storage Data Migration Solution

- Overview of Professional Migration Service
- Process of Professional Migration Service
- Typical Migration Solutions
- Migration Planning and Design Practice
- Case Study

ASSOCIATED CERTIFICATIONS & EXAM

This course will prepare delegates to take the HCSE-Presales-Storage certification exam #H25-631, validating their proficiency in Huawei storage solutions, design principles, and the ability to plan and implement storage architectures effectively.
