

## **Small Diameter Button Mounting Kit - (MA018)**

The small diameter mounting button provides a solution for cabinets and brackets that require a smaller mounting button than what is provided on the PDU.

**INVENTORY:** 

SMALL DIAMETER BUTTON x 20

M4 SCREW x 20

## **INSTALLATION INSTRUCTIONS:**

- 1. Using a #2 Phillips head screwdriver, loosen the M4 screw securing the current mounting button in place.
- 2. Remove the current M4 screw and mounting button from the PDU.
- 3. Insert M4 screw through the small diameter mounting button and align with mounting hole in the PDU.
- 4. Using a #2 Phillips head screw driver, secure the M4 screw and small diameter mounting button to the PDU.
- 5. Repeat steps 1-4 for each additional mounting button.

The small diameter mounting button is installed and ready for usage. For more information, please contact www.panduit.com
