Liset 2.0 System

The system's extreme flexibility is guaranteed by the numerous compositions that can be made using the angular module to create ALL LIGHT solutions, which can offer uniform lighting of the space and constant visual comfort.

The system's main feature is the possibility to integrate a wide selection of additional recessed lights, ceiling spotlights and projectors from the Matrix Q series. Thanks to the different combinations of power, lumen, light beams and aesthetic finishes, Liset 2.0 System can perfectly fit into any architectural structure, enhancing both the showroom space and the items on display.
