

Ref. 9614 VDS/BUS2 CITY CLASSIC MODULE DISPLAY

DESCRIPTION

Display module of spare parts for inclusion in City Classic door entry panels and VDS and/or BUS2 Digital System.

The digital display module lets you search and view in the list of residents (electronic directory) using the browser buttons (arrow keys), as well as providing communication status information.

House calls can be made in two ways:

- by entering the corresponding code assigned to the home + the "bell" key.
- by finding the code in the electronic user directory (browser buttons) and pressing the "bell" key.

City Classic is the "continuous profile" outdoor panel line for buildings.

The PANELS are manufactured in anodized aluminum, highly resistant to rough weather and climate changes.

The panel design stands out for its curved-convex profile. A cellular rubber airtight seal included assures a perfect panel-to-wall fit to prevent water filtrations.

Available in several colours: aluminum, golden or bronze and white.

TECHNICAL SPECIFICATIONS

- High contrast backlit LCD 2 line display, 16 characters per line. Adjustable backlight.
- Module Dimensions: 108 x 66,5 mm (width-height).
