

Mitsubishi Heat Pump Outdoor unit Optional Parts Installation Manual for Attachment

<Outdoor unit>
PAC-SJ82AT-E

SAFETY PRECAUTIONS

- Carefully read this section 'Safety Precautions', and securely install the optional parts.
- Be sure to observe the cautions described here: They include critical contents for safety.
- The following indications show the classifications for danger, and possible consequences following incorrect handling.

⚠ WARNING Incorrect handling could lead to death or serious injury.

⚠ CAUTION Incorrect handling could lead to injury or damage to house and household articles.

- After installation, perform a test run and make sure that there is no abnormality, and ask your customer to keep this installation sheet with the installation manual at all times. Also ask the customer to transfer these manuals to a new user if the user changes.

⚠ WARNING

Ask a dealer or specialist to perform the installation work.

- Specialized knowledge and skills are necessary to perform the installation work. Incomplete installation by the customer could cause water leakage, electric shock, fire, or personal injury if the outdoor unit falls.

Do not pinch the power supply cables or indoor-outdoor unit connection wires or damage them with screws, etc.

- Damaged power supply cables or indoor-outdoor unit connection wires could cause electric shock or fire.

Perform the installation work correctly and completely, referring to the installation manual.

- Incomplete installation could cause water leakage, electric shock, fire, or personal injury if the outdoor unit falls.

When performing the installation work, use the appropriate tools and protective gear for safety.

- Improper tools or protective gear could cause personal injury.

Be sure to use the included parts or the specified parts for installation.

- Use of parts other than the specified parts could cause personal injury if the guide falls.

⚠ CAUTION

Be sure to tighten all screws to the specified tightening torque when performing the installation work.

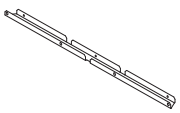

- If the screws are loose, a buzzing sound may be generated due to vibration.

Size	Tightening torque
Screw M5 × 15	3.5 ± 0.2 N·m

- Use this attachment to install the air protect guide/air outlet guide to the AA series.
- Install the air protect guide/air outlet guide according to the installation manual included with the optional parts.
- Install the air protect guide/air outlet guide to the attachment with a tightening torque designated in the installation manual.
- For the required installation space, refer to the installation manual included with the optional parts.
