

MULTIFIX[®] 100

Bus Bar System 100mm

BUS BAR SYSTEMS

COMPONENTS FOR 100MM SYSTEMS

MULTIFIX[®] 100mm is a system for complete touch protection on to bus bar systems with 100mm bus bar distances.

FEATURES & BENEFITS

- Optimum touch protection of bus bar cover (back to hand)
- Modular system for bus bars with thickness of 10mm
- Time and cost saving installation
- Ease of handling
- Modern design
- Direct installation without drilling via hooked clamps
- No installation of cover shields necessary
- No disconnection of system for extensions necessary
- Adjustment and changes of NH-vertical fuse switch disconnectors under live conditions

APPLICATIONS

- Feeder pillars
- Transformer substations
- Switch boards for industrial applications
- Residential and industrial distribution units
- Cable distribution cabinets

MULTIFIX® 100

Bus Bar System 100mm

PRODUCT RANGE

MZSST100

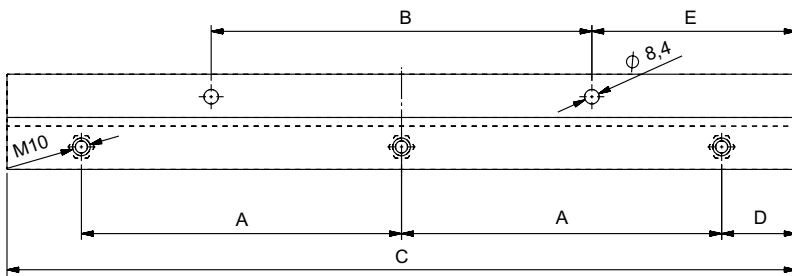

MULTIFIX® 100 Bus Bar System 100mm

Catalog number	Item number	Design	Weight kg ¹	Package
MZSST100	H1023461	bus bar carrier triple pole for bus bar system 100 mm	0.22	1 piece
MZSST	K1023463	bus bar carrier single pole for neutral conductor	0.10	1 piece

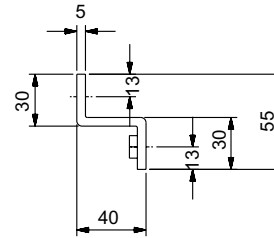

¹weight in kg per piece or set including package

DIMENSIONS

Bus bar carrier for MULTIFIX® 185/MULTIFIX® 100 (M01161a)

Dimensions in mm
