ThingParkEnterprise

All-in-One

- ▶ Autonomous gateway with embedded LoRaWAN® Network + Join Servers
- ▶ Capacity: Single gateway and up to 100 devices
- ▶ Cost-effective LoRaWAN® network to get started
- ▶ Full on-premises, 'single box' solution to serve single/isolated gateway use cases.

Seamless migration to a fully scalable solution: TPE All-in-One is easy to scale to a larger, future-proof network with full feature set of **ThingPark Enterprise**, bringing scalability, a centralized, advanced device management, cloud connectors, geolocation, HA, Roaming, and much more.

Features

- ▶ State-of-the-art NS and JS
- ▶ Device & Gateway management (e.g. bulk device import, device catalogues, etc)
- ▶ Device Payload drivers
- ▶ Node Red interface for easy integration to application server
- ▶ Enhanced battery lifetime due to the Advanced ADR algorithms

Supported Gateways

Both indoor and Outdoor gateways of several manufacturers are already supported. Interested in the OEM model for TPE All-in-one? Contact our sales representative...
