

### Installation

Accurate cabinet placement is essential for the proper assembly of the NET-CONTAIN system. Do not attempt to install before reading the Assembly Instruction Sheet. Visit our website ([www.panduit.com](http://www.panduit.com)) to download a copy of the Assembly Instruction Sheet Net-Contain (Universal Aisle Containment V00029BZ) or (Universal Single Row Containment V00029GR) which details this installation. If you have purchased an end of row door frame, a paper copy of the assembly instructions are included with this.
