

For those who like to do things differently, Fermax presents the new Way Kit.

Choose among 20 different melodies, customise the monitor's settings, record videos and capture images of your visits and all of this in a single Kit!

The Way kit includes a video door entry panel made of zamak metal with high sensitivity colour CCD camera as standard. Surface installation.

- Intercom: Establish communication with another installed monitor inside the house. In the 2 apartments kit the option to call to another apartment is available as well.
- Playback: After 3 seconds the monitor automatically records a video (in case there is a micro SD Card installed) or a picture (in case there isn't) of the visitors. While answering, you also have the option to manually take a snapshot of your visit. The recorded videos/pictures from the outdoor panel will be played on the screen.
- Settings: Brightness, contrast, selection of melodies, date & time, scene mode (brightly, soft and user), ring volume for day time and night time, language selection (16 different), etc.
- Do not disturb: 1 hour, 8 hours or always.
