Objet : REACH Regulation. Update to the list published on January 2021
Dear Customer,

On June 1st, 2007, Regulation n°1907/2006 concerning Registration, Evaluation, Authorization and Restriction of Chemicals came into force.

With the publication of the so called “candidate list” on October 28, 2008 and updated on January 2021 (last up-date), Article 33(1) of the REACH Regulation obliges suppliers of articles to inform their industrial customers of the presence in the article of substances of very high concern listed in the candidate list in a concentration above 0.1% weight by weight (w/w) in any article of our products.

211 substances are listed now in the candidate list.

You will find in the table below the information regarding the presence or absence of SVHC in our articles. This information is the result of our investigation and the gathering of our supplier’s answers.

The information below represents our best knowledge relative to the presence of SVHC in our products as the date of publication of this information.

This information will evolve over time, as a function of the improved knowledge resulting from both additional information provided by our suppliers and our own investigations.

Do articles contain any SVHC ?			
Product code	Yes / no	If yes Chemical CAS number	Concentration (% in weight by weight)
84137910N	No		
84137450N	No		
84137460N	No		
84137480N	No

84065030N	No		
84065040N	No		
84064240N	No		
84064350N	No		

The candidate list will be regularly updated with new substances. The process will be the same with new SVHCs.

We remain at your disposal for any additional question you may have.
With our best regards
