Product Overview

The Wall Mounting Patch Brackets for 483 mm (19") installations are used for open mountings of 483 mm (19") components. They are available in several height units to suit to your individual needs of space. The brackets are adjustable in depth (from 225 mm up to 399 mm) which makes the installation of larger components possible. The rear side has a big cut-out area that can be used to guide cables which come directly from the wall.
