

A system of command and control wireless devices based on Zigbee technology that offers innovative solutions for the renovation of buildings, minimizing the structural interventions. Zigbee is a safe and reliable system because the data exchanged are encrypted and every node of the network always ensures reachability among all the devices (mesh network). The Zigbee devices enrich the range of home&building automation solutions by Gewiss and can be managed via App, with smartphone and tablet, through the Smart Gateway.

Catégorie		Smoke alarm	Couleur	Blanc
Protocole de communication	Zigbee (IEEE 802.15.4)	Tension d'alimentation		Alimenté par batterie
Piles d'alimentation	CR123 replaceable	Output power		8 dBm
Sortie sirène	85 dB/3 m	Capteur de température		0...50 °C
Norme	2014/53/EU, EN 60669-2-1, ETSI EN 300 328, EN 14 604	Indice de protection		IP20
Température de fonctionn.	0 ÷ +50 °C	Température de stockage		-20 ÷ +80 °C
Relative humidity (non-condensative)	10 ÷ 95%	Dimensions (mm)		Ø 65x40
Electrocod	051A
