

A complete system for the connection and distribution of LAN networks in the residential and tertiary sector. The range includes solutions for optical fibre, wall cabinets, floor-standing cabinets and products for copper wiring. The Data Center cabinets come with a wide choice of configurations and various depths (up to 1000mm) to meet every application need. Made of top quality materials (static full-load capacity up to 1000kg), these products guarantee easy wiring (thanks to the notable internal space) and can be completely customised with removable and reversible front doors.

Description	10" cable management panel	Caractéristiques	With 2 rings
Matière	Acier	Finition	Wrinkle
Couleur	Noir RAL 9005	Unité de câblage	1U
Electrocod	3752
